Note:

In order to upload your Bandlab beats to Beatstars you will need to convert the Bandlab exported file to .wav then upload to Beatstars. A good free tool is called Audiolab download

Pretty sure that 📱 app is only for Android:

All you need is a simple audio converter app so I found one. If you're an apple user that already uses an audio converter app then feel free to use that one.

Here is one if you need one!
