Sadie Jenkins ([00:12](#)):

Sadie Jenkins. Welcome back. We are here for our ninth teacher tip of the day in celebration of International Podcast Day.

Monica Mobley ([00:20](#)):

The end is near. And for our teacher tip this hour, we have Christie Neighbors back with us to talk about creating structure in the classroom, which is vital if any learning is going to occur.

Sadie Jenkins ([00:31](#)):

So true. And this is why we emphasize strategies such as this for our first year teachers and those in our RPEP program for new teachers.

Monica Mobley ([00:40](#)):

But of course, this applies to all teachers. So more wisdom.

Sadie Jenkins ([00:45](#)):

And so useful. So let's listen.

Cristy Neighbors ([00:48](#)):

What can teachers do to create structure in the classroom? Try these tips. One, make expectations clear. Two, have a predictable daily schedule. And three, give better directions. How do you do that? Well, make eye contact with a quick scan of the room, break the task into steps with visual cues on the board, and ask students to restate the directions or to tell a friend. These tips help everyone get off to a great start.

Monica Mobley ([01:23](#)):

Christie always has such good advice.

Sadie Jenkins ([01:26](#)):

She has good teaching advice and good life advice, just in case anybody needs to know that. And she is so good at speaking in a way that is straightforward and doable.
