GENERAL PART GUIDELINES -THROTTLE BODY

[Link loop to zoho](#)

What is a throttle body ?

A throttle body varies the amount of air entering an engine, by using a flat valve (butterfly) that rotates inside a tube-shaped housing.

Components that will always be included with this item(if they are not with Part or damaged, it should be noted in description)
THROTTLE BODY SENSOR - TPS

Components may be available at no charge i.e usually just left on Part but not charged extra for (if buyer requests these items make sure to confirm with operations that they are with the Part)

Components not included usually but which maybe included at extra charge i.e not usually with part but we will have if required (if buyer requests these items make sure to confirm with operations that they are with the part)
