General Guidelines

If you are interested in a commission, please send me a private message through your website of choice (I'm on Derpibooru, InkBunny, and FurAffinity). I do not accept unsolicited emails of any kind; if you send me an email, it will be deleted and your address will be blacklisted. I do have a Discord, but I don't accept unsolicited friend requests. We can discuss business on Discord if you request to do so.

When you message me, please use 'Commission' for your subject line, or a variation including that word. Please refrain from using only niceties; saying 'hi,' asking how I'm doing, etc. You're allowed to, but please don't have this be the sole content of your message. If you aren't messaging me for a commission, or advice on using SFM, you will not receive a response

When you send me a message, I would prefer for you to be as detailed as you can. Don't just say 'I want X and Y to have sex,' because that doesn't tell me anything and can be rather frustrating. If you want a specific position, time of day, location, etc., you need to specify. If you do not, you will be giving me the artistic freedom to do whatever I want. If you are okay with this, please let me know that you don't have anything specific in mind. Picture references are always welcomed.

For Source Filmmaker, if you have an OC you'd like me to use, please send me a download link to the model. If you do not have a model, you will need to get one as soon as possible. I'm not a modeler, so please don't ask me to make your OC for you. However, if you have a feral model, I can do a headhack. Just provide a high quality copy of your OC's Cutie Mark and a link to your OC model. I will not use the models of other peoples' OCs in your commission without their expressed, written permission; you must provide proof you're allowed to use their OC.

I reserve my right to refuse service to anyone, for any reason I see fit. If I say no, it means no.

Source Filmmaker Commission Process

1. Once I receive your message, and I approve your request, you will be placed into a queue. This queue is first come, first serve; though commissions will be worked on concurrently to get them finished as soon as possible. Depending on how much work I have (be it commissions or IRL Work), I can't guarantee a specific time when you'll be messaged. I try to respond as soon as I'm notified, but that may not always be a guarantee.
2. When it's your turn in the queue, I will send a confirmation message that will include your total amount due and my PayPal address. I request 100% upfront to be paid within 24 hours. If you do not send the payment within those 24 hours, your request will be frozen in the queue and I will continue work on the next commission in the queue. Once payment is received, work will begin on yours.
 - a. **If you are unable to, or uncertain if you can, pay the 100% upfront, let me know and we can discuss further. I can't promise that I will make split payments, but I'm willing to work with you if it is a reasonable request.**
3. Once payment is received, I will begin work on your commission. With how I work, I can have it potentially finished within a general amount of time; originally it was 1 image a day, but will likely increase to get commissions out quicker. I can't promise exact or specific dates, but they will be done before the Refund Deadline.
4. As I work on your commission, you will receive WIP updates on a regular basis. They are very low quality, meant to only convey posing, facial expressions, body types, etc. You're allowed to change anything you'd like with these WIPs; there's no extra charge.
5. Once the commission is complete, and you're satisfied with everything, you will receive an unwatermarked copy at 4k resolution. You also have the right to post the image wherever you see fit, so long as proper credit is given. This image will be sent via a Google Drive link.
6. After you receive it, it will be uploaded to my various art accounts. FurAffinity, InkBunny, Derpibooru, Twitter, and e621. Depending on the subject matter, your commission may only end up on a handful of these sites.
 - a. **If you do not want me posting this online, let me know ASAP. If you'd like to remain anonymous when I post, let me know ASAP.**

Short Story Commission Process

1. Once I receive your message, and I approve your request, you will be placed into a queue. This queue is first come, first serve; each commission will be made in order of it being received. Depending on how much work I have (be it commissions or IRL work), I can't guarantee a specific time when you'll be messaged. I try to respond as soon as I'm notified, but that may not always be a guarantee.
2. When I start your commission, I will ask for \$20 upfront as an "Upfront Fee" so I know you're serious about the project and that I can properly dedicate my time to your story.
3. I can't always guarantee how long your story will be, so payment will be requested upon completion of the story. Depending on the content of the story, some may be longer or shorter than others. Because of the medium, and how much I enjoy writing, there's a good chance your story could be several thousand words long.
4. After the first draft is finished, you'll receive an encrypted, watermarked PDF for review.
5. If you'd like the story revised, it will cost an additional \$20 per revision. A revision involves altering the story in a way that changes the ending, adds in a new character, or just requires the whole draft to be rewritten.
6. But if the draft is to your liking, the story will be proofread for grammar, spelling, and punctuation. After editing is finished, you'll receive an encrypted, unwatermarked PDF.
7. After you receive it, it will be uploaded to my various art accounts. FurAffinity, InkBunny, and FimFiction. Depending on the subject matter, your commission may only end up on a handful of these sites.
 - a. **If you do not want me posting this online, let me know ASAP. If you'd like to remain anonymous when I post, let me know ASAP.**

Refund Policy

IMPORTANT NOTICE

My refund policy is currently suspended indefinitely for larger projects. Small stuff (say, around, 10 images or less) will still qualify for a refund if necessary.

For Source Filmmaker projects: If you do not receive your commission within two to four weeks of your payment, you will be sent a full refund. Larger projects that require more time will be discussed personally.

For short stories: As payment will be requested upon completion, there will be no refunds.

Subject Matter (cont'd.)

* - While I won't make anything pornographic with characters from *Hazbin Hotel*, it does not mean I'm against anything that involves shipping, promiscuity, etc. As an example, I won't do anything involving sex between Alastor and Angel, but I can do stuff that's more flirty.

** - Like with *Hazbin*, I'm not willing to do anything pornographic with most characters from *Helluva Boss*. The only exceptions are everyone's favorite hellhounds: Loona and/or Vortex.

*** - Impossible penetration refers to sexual penetration that is against all known laws of physics; ear fucking, nipple fucking, going all the way through, etc.

**** - Body mods is quite inclusive; multiple arms, heads, legs, penises, breasts, nipples, etc. But it also includes the more niche/odd stuff; dicknipples, cocktongues, etc.

***** - The only exception is with anthro models created by WarfareMachine. These, currently, include Rouge the Bat, Sally Acorn, and Blaze the Cat.

Short stories largely have the same restrictions when it comes to original content. Some fetishes will be easier done through a short story rather than SFM (Steam abandoned this program and it is quite limited in what it can do). Fanfictions, however, will be tricky. If you'd like me to write fanfiction, I will only write for franchises I'm familiar with. For example, I won't write anything in relation to *Steven Universe*, just because I'm not familiar with that television series. But if it was for *My Little Pony*, I'd be more open to the idea.

If your fetish and/or idea is not listed on my list of Wills and Won'ts, you can always ask for clarification. I believe this list is extensive enough to give most people a good idea of where I stand with content and subject matter. But don't be afraid to ask if you aren't certain.
