Study Guide

Unit 2: Georgia's Geography

* Identify and label the 5 physical regions on a map

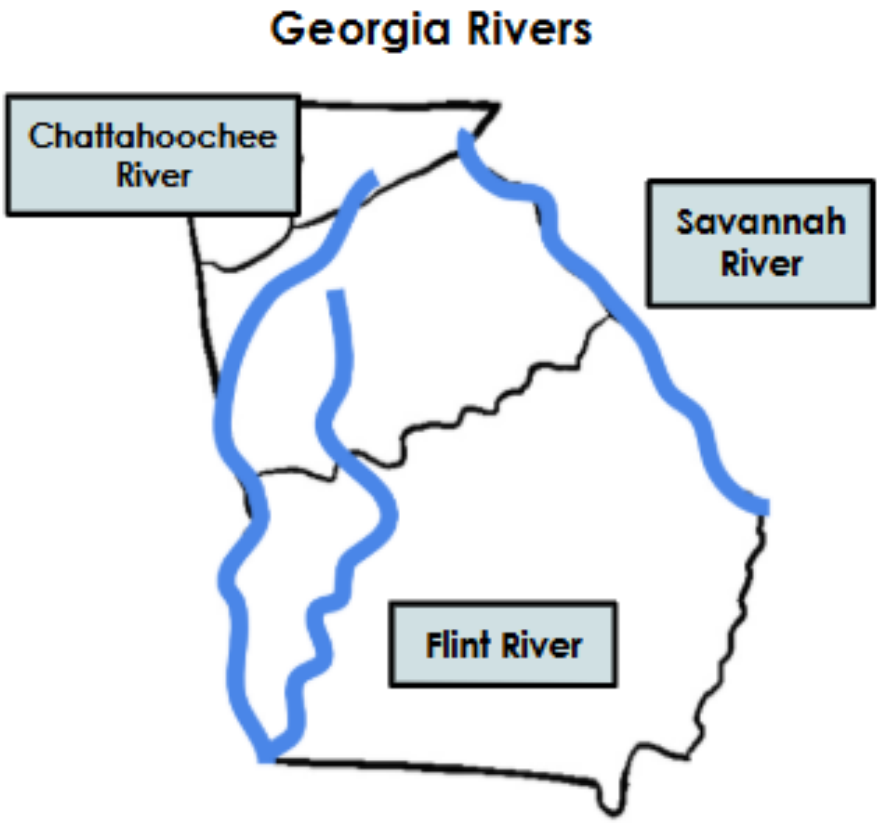

Here are some highlights of each region:

- **Appalachian Plateau**—mountainous region located in the northwest corner of Georgia; deep caves
- **Ridge and Valley**— tall ridges separated by fertile valleys
- **Blue Ridge**—contains the state's tallest mountains called the Blue Ridge Mountains
- **Piedmont**— mountains and hills in the northern areas; less hills in the southern areas; most populous region

- **Coastal Plain**— flat land with rich soil; large farms more inland; swamps and beaches near the ocean

* locate these **3** rivers in Georgia: **Flint**, **Savannah**, and **Chattahoochee**.

Chattahoochee River	water source 
Savannah River	ships carry goods 
Flint River	fishing
