Combo ideas:

A list of potential combos of monstergirls & modifiers. Just like monstergirl and modifiers ideas, anyone can propose combo ideas. Of course, these are just possibilities and the chances of these combos actually happening is relatively low, but it might allow some to vote toward a combo they hadn't considered. [Combos utilizing unsubmitted modifiers/monstergirls are written in blue.](#)

Mushroom Girl + Lanky + Occultist + Multi-Arm

It's the closest we'd get to an eldritch not-eldritch being, and I think that's kinda neat. If you wanna lean into a less supernatural angle, you can swap Occultist for Goth and get a similar effect

Vampire + Nurse + Upside Down Pose + Mom Bod

Being an individual who can't get sick, she's actually the ideal medical personnel, though her payment has had some... Unintended side effects. She also tends to zone out a lot and walk on walls/ceilings without realizing it due to constantly reading charts.

Court of Fairies + Multiboob + Smug + Villainess

A malevolent fae whose power overflowed and now she has an extra set of tanks. Given that she's sitting down on a throne/pagoda type deal and carried around by minions, her ego has gone out of control. She mostly joins because her bruised ego

won't let her leave Vuu alone, but Vuu being made of like 85% sunshine helps her grow some morals.

Lich Girl + Cybernetics + Eldritch Garments + Jojo Pose

Basically she's trying to achieve true immortality by merging magic and ancient science, but since she's just putting her own life at risk, it's not really a villainous thing. She just wants to live forever for some reason. Might lead to a mocking/silly interaction with the actual Eldritch Abomination girl ("Why are you wearing my hair as clothes you weirdo.") or somesuch.

Dullahan + Bold + Muscular + Baywatch

She uses her head as a floatation device instead of a ring, and since she's technically an undead, she doesn't care about drowning.

Anglerfish Girl + Side Boob Angle + Sharp Teeth + Belly Dancer

Could swap out Sharp Teeth for Smug (possibly a redundancy thing) Basically whether you're mesmerized by her light or by her hip movements, she knows she's got your eyes on her and is into it.

Bunny Girl + Pirate + Clumsy + Feral

She... really likes fighting. I'm talking "Monty Python Killer Rabbit" likes fighting. But she's a bit overzealous and has a habit of flinging herself overboard too early. Fortunately rabbits can swim, so she usually just goes around and climbs up the side of the ship for a flank.

Amazon + Height Growth + Maternal (Pure) + Breast Curtains

She's actually a super nice friend and "amazons just keep getting taller" is kinda their whole species "hat" if you will. They just don't stop, with the caveat that they don't live for a super long time either because of it.

Roswell Gray + Catsuit + Bubbly + Digging Through Own Cleavage

The alien actually does have a Bra of Holding instead of a tril, but the issue is that she's disorganized. Very charming, more of a very energetic tourist than a weirdo space invader.

Mothgirl + Bodyparts As Clothes (Fluff in this case) + Petite + Villainess

TINY MOTH GIRL WANTS TO STEAL THE SUN, THE ULTIMATE LIGHT. Naturally she's a bit delusional, but it could lead to some interesting theme stuff.

Succubus + Totally Radical + Duck Face Selfie + Bold

LOCAL HELL ESCAPEE DECIDES TO CORNER THE MARKET ON DUDEBROS FOR EASY POWER. ACCIDENTALLY BECOMES A DUDEBRO HERSELF. You are what you eat, etc.

Octopus Girl + Sharp Teeth (Tooth? Beak.) + Milk Maid + Anxious

Very intelligent bundle of nerves picks an outfit that would let her shoot ink at the drop of a hat. Since it's infused with mana, the clouds operate as if underwater physics even on dry land and allow for an expedient escape. ...Yes haha boobs = ink sacs.

Cosmic Horror Girl + Impractically Revealing Armor/Bodyparts As Clothes + TV Head + Corruption

The idea is that it's a different spin to the "possessed doll" thing I talked about before, since we don't have the right traits in for that yet, and she's basically only wearing clothes out of politeness. It's not like she cares about defense, and as she gains power the paper thin facade of being human fades. (Note: I would rather have Bored as a personality type or a miscellaneous Mask trait for this, but I'm working with what we got)

Valkyrie + Buttoned Shirt + Hands on Hips + Embarrassed

Turns out that she's the type of Valkyrie that handles the paperwork for soul escorting, but due to Story Reasons she's out in the field. She looks like an office worker and is very not used to getting the kind of attention her sisters get. She's barely holding it together.

Gargoyle + Fake Boobs + Metalhead + MILF (Lecherous)

Essentially, because she's lived a long time and because she's only technically alive for half the time of a normal being, she actually does fit in the MILF category. I'd assume that, since the best concerts are at night due to pyrotechnics, she'd be really into those. And the fake boobs is because while she is flat as a board, when she reverts into Rock Mode, everything she's wearing also goes into rock mode, so it looks like she's stacked during the daytime. Then she gets roped into Vuu and Friends shenanigans and learns OH COOL I DON'T ACTUALLY HAVE TO FAKE IT ANYMORE.

Scylla + Freckled + Undersized Clothes + Ear Piercing

Really scraping the barrel a bit here, but I suppose the visual joke is that her clothes did fit before, but they shrank once she left the water. Maybe you go to her home area in the sea at some point and spot how her outfit is supposed to look.

Robot Girl + Boob Tent + Gym Clothes + Anxious

ROBOT GIRL CREATED AS WORKOUT PARTNER BY CREATOR. DOES NOT COMPUTE INDEPENDENTLY DEVELOPING AAAAAAAAAAAAAAAAAAAAAA.exe

Voleian + Brawler (Theme) + Sun Dress (Clothing) + Cool Headed (Personality)

Basically, what if Vuu but a side character. Also punching while looking cute.

Cosmic Horror Girl | Magical Girl (Theme) + Eldritch Garments (clothes) + multi-arms (physical)

Previously a normal human girl that made a contract with an elder god for boobs power. This is her transformed state where she herself has the appearance of an eldritch horror while still maintaining a cutesy aesthetic a la magical girl

Cat Girl + Belly Dancer + Embarrassed + Wide Hips

Gargoyle + model + Bold + Arms-Behind-Head-Pose

It doesn't have to be that particular bundle of modifiers, but the idea is she is a statue by day in a famous art exhibit, one of the most well known/beautiful in the land, who adventures/parties at night; Alternatively, sub out Gargoyle for Living Armor, and instead she guards the Castle gate for work instead

Shark + Body parts as clothes + Oversized Weapon + berserker/muscular

Shark Viking girl on a quest to Claim booty and boobies in the voleian kingdom. For extra fun, Her sword also has serrated teeth. For body parts as cloths, I was leaning more into Monster Hunter, like armor made of skin of defeated foes, but if that's a bit weird considering circumstances, a scale mail vest that fits less and less is a good alternative

Slime + Cat + Dessert + Chimera

Delicious, jiggly, jello waifu who is mischievous and sweet

Living Armor | Phantasmal + Loose Fitting Clothes + Floating Limbs

This is a variation where there's a ghost possessing the armor that is vaguely visible. The armor itself was built for a woman with a large bosom, but the ghost doesn't quite make the cut. As she ranks up she grows into and out of it

Gorgon + Creepy/Blank Faced Mask + Floor Length Hair + Occultist

Rather than a viper with a big hood, I'd actually kinda prefer something more like a gorgon; snake hair that goes super long and while the lady just generally acts on the creepy side. Maybe she was a regular lamia who got cursed, maybe she was born cursed, who knows. The important thing is that we never see her proper face, and it's all the snake-hair that does her emoting.

Succubus + Cheerleader (Theme) + Doting/Loving (Personality) + Petite

Rookie Succ wants u to do ur besto

Owl Girl + Long Legs/Short Torso (Body Type + Large Eyes + Goth

Spoopy birb gives you big goth looks; there is no story, only Aesthetic

Dog Girl + Permanent Scowl (Misc.) + Freckled (Phys. Change) + Loose Clothes (Clothes)

Just this dobermann styled serious faced girl whose tail always gives her away enjoys running

Hydra Girl | Glasses (Misc) + Buttoned Shirt (Clothes) + Stoic (Personality)

Using her hydra heads as a substitute for extra hands she is the penultimate multi-tasker wearing office attire. Probably an updo hairstyle, button down blouse, tight skirt with some nice stockings. Boob tent is also an option here

Slime Girl | Cybernetics + Bodyparts as clothing + flexible

A slime girl which swallowed some high tech stuff got cybernetic implants. The cybernetics could have an impact on her personality possibly. Bodyparts as clothing is also flexible, but there by preference

Lamia + Cowgirl [Gunslinger] (Theme) + Lanky (Body Type) + Floating Hands (Prop)

Give each floating hand a gun and become the bullet hell yourself also snek in my boot joke

Plant girl + Mom Bod + Maternal (pure) + Bodyparts for clothes

I already talked about this once but i didn't really go into what i was hoping for, essentially it could be like the embodiment of Mother Nature she's super nurturing and kind because she "loves all of natures children" so she ends up being team mom with big fat baps covered up by ever increasing foliage at the front of her chest

Succubus + Fake boobs + Shy (personality) + Squeezing her boobs

so like the succubus starts off with a small chest supplemented with fake pads, she's really sensitive about it and timid as a result, the boob squeezing is just to give that "C'mon why won't you grow" feel when you first meet her I was also thinking that you could replace shy with Embarrassed and have a "be careful what you wish for" type thing where she ditches the pads and is happy with the tits she has... but that's at like rank 2 and then she keeps growing and starts to regret that she wanted big boobs so badly

Dessert Elemental + Second set of breasts + Bold + Squeezing her breasts

So I was thinking like, A dessert elemental that loves to feed people cream so she HEAVILY overcompensates, being very bold and brash with her boobs, giving herself an additional set so as to serve more people, and the pose just to fit to her idea of loving how big and creamy she is the third modifier is more for the sake of having it there i couldn't think of anything that got the point across more also the idea of clothes on an elemental is hard for me to wrap my head around

Shark + Shortstack (Body Type) + Large Tertiary Traits (Miscellaneous, Tail in this case) + Mana Shard Jewelry (Clothes)

Tiny salmon shark thinks she's getting bigger because her tail had a growth spurt, is completely unaware it's because of the "cool new necklace mosaic i made from a bunch of mana shards" Bonus points if the necklace is either A.) fairly big or B.) a color that's completely unique to somehow frankensteining all of them together.

Kobold + convenient censorship + any big butt modifier + Humble

So let me explain what i think Convenient Censorship SHOULD be, basically the girl grows and eventually destroys her clothes and then something conveniently covers her nipples, like her hair or arms or like the whole pieces of clothes hanging from her nipples thing there's probably a better way to describe this mod Anyway, my idea was like a homeless Kobold that doesn't have enough money to afford clothes and stuff so as she ranks up her clothes stay the same size and get overfilled and eventually burst her humble personality prevents her from accepting money from the other girls, kept the butt mod cause it's a fan favorite

Bee Girl + Musician + Clumsy + (Wild Card)

Local Bumblebee Makes Rhythmic Buzzing

Slime girl + chimera + knife nut + nippleless nudity

A rough and tough tiger slime that wears nothing and wants to stab people with the many knives within

Slime Girl + Narcissist + Cat Chimera + Squeezing her boobs

A boob hungry catslime who enjoys growing a bit more than most.

Magi girl + Disembodied Hands + Multi-arms + Impractically Revealing Armor

"Authorities were baffled by a string of thefts as citizens reported stolen Magi being carted off by floating hands. All stubborn enough to cling to the hands and give eye-witness testimony consistently described an (insufficiently) armored woman made of Magi, however none were able to agree upon a physical description. On further

review after sorting the reports chronologically, investigators concluded the woman was using stolen currency to make herself larger!" Rare Encounter/Loot piñata + lore idea. The armor could have been from a fallen adventurer obsessed with money, and the Magi girl herself has the spirit of said former adventurer.

Anaconda + Egyptian clothing+ villainous.

An Egyptian snake that thinks it'll bring back the pyramids. Magic could be focused from an Egyptian necklace around her neck. Uses ancient magic to attack. She thinks she is an egyptin goddess reborn. Fun theme idea

Human + JRPG Character + Cheerful/idiot

Isekai girl falls into the Vuuniverse and immediately wants to go on an adventure, but always gets lost, has no clue what she's doing, and can't figure out why here awesomely impractical outfit doesn't fit the way it did when she first arrived

Succubus - very wide hip/large butt + goth/metalhead/something un succubusy + embarrassed (increases with rank) + Less resilient clothing

In her rebellious phase where she refuses to do normal succubus things. As she ranks up her body rebels against her rebelling making her increasingly embarrassed as her body makes her outfit more and more fit for a succubus to her dismay

Dryad + Occultist (Theme) + Kimono (clothing) + Shortstack (body type)

Bonsai Dryad is no longer baby, she desires power

Yuki-onna+ Tomboy+ Totally Rad + Musician

A literal Vanilla Ice who acts tough, but melts when Vuu hits her with one of her smiles

Magi (Money) girl + Chimera Traits [Living Armor] + Impractically Revealing Armor + [[Wildcard option; thinking Head Start trait where they don't get much boob from ascension]]

Just this blinged up girl who, in lieu of increasing her impressive (monetary) bust, instead dumps her money into her vessel, giving it that ultra-fancy dress armor look. Starts off fairly normal, turns into a goddamn 40k character by the end (joke)

Arachne + Floating Limbs (Physical Change) + Quipao (Dress) + Upside Down (Pose)

I feel like the arachnophobia wouldn't be triggered as aggressively in people if you just Rayman'd the parts, or made them kinda digital, and also floating limbs are neat. The Quipao is just because that dress is hot and would fit her human parts nicely.

Could also do the Digital Limbs (Physical Change) option though Which is just the more robot-y version of that

Salamander + See Through Shirt/Visibal Bra (Clothes) + Bold (Personality) + [[Wildcard Pick, though I wouldn't mind Tomboy in place of Bold personality wise, Sharp Teeth, or Second Row of Breasts just for fun]]

WE LOVE US A HOT 'N SWEATY AMPHIBIAN THAT MAY OR MAY NOT BREATHE FIRE DEPENDING ON NOSE'S INTERPRETATION.

Robot Girl + Nerd/Gamer + Fake boobs + (I'm struggling with the phrasing here Egirl? Thot? Think bell delphine)

Anyway, a girl gamer robot girl looking to build a fan base. Has installed external harddrives to fake her size to get attention, gradually "upgrades" as she gets more fans and her numbers go up

Living Armor + Multi-Arms + Floating Limbs + Swordswoman/Duelist

Living suit of armor with extra arms floating behind her, each wielding a sword kinda like the Goddess Kali statue in The Golden Voyage of Sinbad.

Living Armor + Metalhead + Knife Nut + Floating Knives/Small Weapons

Haunted armor with lots of studs and maybe a steel mohawk. The different armor sections are floating as if possessed, as are the multitudes of pocket knives and switch blades dancing through the air around her.

Living Armor + Nun (theme) + Boob Tent (Misc) + Bones (Misc)

DEUS VULT DEUS VULT DEUS VULT DEUS VULT (Lady paladin, basically)

Rokurokubi + large eyes (misc) + shrine maiden (clothes) + floor length hair (misc)

Trilobite Girl + Trilobite Breeder + Shortstack + Thigh High Socks or Floor Length Hair or (Wild Card)

Cute Shortstack Trilobite girl who breeds normal Trilobites as a business, potentially having a cute pair of thigh highs, long hair, or whatever, could be a huge variety of ideas in all honesty, I just really like the idea

Flatwoods Monster + Slowly Failing Chest Compression + Lanky + Anything that fits for an isolated, unique cute alien girl.

Strange Alien girl who finds her contraptions to contain her bust from getting in the way failing when she joins Vuu + Party

Bedbug + Pajamas + Whatever the hell else Sleepy bedbug who takes lots of naps, wondering why she is getting bigger each time she gets up. Bonus points if bloodsucker.

Lamia + Height Shrink + Whatever Else (Bonus points if shortstack)

Lamia with a cheeseburger keeps finding her body getting smaller and tits getting bigger, her favorite meal becoming harder to eat as she keeps getting tinier and tinier, till eventually she's something smaller than a pen to the cheeseburgers. (had to refrain from saying a hundredth of the size of a cheeseburger lol) Alternatively, her prop is something she's coiled around and she remains coiled as she gets smaller?

Dino Girl + horny police + wild woman + hand/arm bra

Cavewoman style dino monster girl who serves as the old-school horny police with her big club bonk stick. Tries to maintain better modesty by covering herself with her free arm.

Dino Girl + Space Marine + Slowly Failing Chest Compression + Wildcard

I forgot to put this here, I basically wanted a Dino girl from the future

Mosquito Girl + Goth/Thigh High stockings + Long Legs, Short Torso + Smug

Tiger mosquito based girl. Leg stripe pattern gives a striped knee-sock look (potentially gothic). Is really smug about her long legs

Valkyrie + Deadpan (Expression) + Holographic Limbs (Misc) + Carbon-Fiber suit

Cyber Valkyrie helping l33t gamers ascend for the final battle against n00bs. Actually hates her job because of all of the toxicity.

[The girl doesn't matter] + Surfer (Theme) + Oversized Weapon (Theme) + Side Boob Angle (Pose)

I had an idea of a girl with a really big fuckin' sword that she used as a surfboard A Busty Blader, if you will

The girl attached is less relevant, but some good picks would be Valkyrie, Amazon, Otter, or Octopus.

Succubus: Very wide hips/huge butt, giantess, villainess.

A succubus who's taken over a small area, enthralling everyone there to worship and lust after her. All that lust has caused her to grow into a giant embodiment of the areas desires.

Gravitar + Gamer/Streamer + Asserting Dominance + Gravitart Sponsorship

MLG Gravitar T-poses on filthy casuals

Living Armor + Needlessly Sexy Version Of A Work Outfit (Clothes) + “Fish Out of Water” (Personality) + Chivalrous

The ghost of a knight in modern times tries to find a suit of armor to possess, the closest they can find is a mascot costume from a theme park. She's convinced it qualifies for modern day armor but is really clueless

Voleian + Height Shrink + Trilobite Breeder + Embarrassed

Voleian who breeds trils finds herself shrinking around her trils, becoming increasingly embarrassed as her life's passion becomes bigger and bigger around her, and her height smaller and smaller.

Trilobite Girl + Gamer/Nerd/Streamer + Height Shrink + Obsessive

Trilobite Gamer with a strong love for her games finds herself getting smaller at the seems, her controller in hand getting bigger as she finds it almost fun, interesting, and neat that she's shrinking, becoming obsessed with her reducing size as she finds more difficulty playing her games.

Voleian + Dark Mage + Height Shrink + Teasingly Holding Breasts

Voleian Dark Mage infuses herself with spells to make her breasts larger with rank ups, but finds that it has malfunctioned, causing her to lose height in turn as she ranks up, though her breasts are certainly growing at a substantial rate. She decides to go with it, and shows off her tits even though she in contrast gets tinier.

Hydra + Admiral/Captain + Foody (Loves Food) + Slowly Failing

Chest Compression Experienced, Elite Hydra woman with a love for seafood joins Vuu's cause, her tight coat and chest straps failing to hold her growing tits back as her own seas flow fourth from the bays.

Kobold + Height Shrink + Miner + Debauched Slouch

A Kobold, a race renown for already being pretty small, who is a pretty lazy miner, finds herself getting smaller and her tits getting bigger, however, being the lazy fuck she is already, doesn't give a shit as she just lays on her new pillows and continues to slouch, even as she reduces in size.

Cosmic Horror Girl + Eldritch Garments (Clothes) + Height Shrink (Physical Change) + False Body (Unique)

Throwing out the concept of a "Unique" modifier, i.e. something specific to the girl. The previously established version of this would be Box for lamia, since, while it's a solid snake joke, it's genuinely one unique to her. As for the combo itself, I've said it a couple times already but this is more of a formal post: the "girl" we see is the fake body, the clothes are the actual entity. It could be a dress, it could be a sash, drapes, a long dress with eyes, whatever works for the concept, and the girl herself would be unsettlingly fake, porcelain doll style. I feel it'd focus more on the "Incomprehensible Biology" angle of the eldritch theme.

Gravitar + Villainess (Theme) + Eldritch Garments (Clothes) + Size Growth/Monstrous Limb (Physical Change)

Unlike our usual lovable gravity girl, this one's larger and more menacing, with the end goal to go supernova and create her own galaxy. It's possible that her suit is falling apart due to a Foreign Entity that she picked up on accident in travel to this world.

Gargoyle + Nippleless Nudity (Physical Change) + Freckled (Physical Change) + Narcissist (Personality)

A gargoyle who, rather than the usual living stone bodies, is made of gold instead. The freckles are little gems dotted into her over the years; she's shiny and valuable and she knows it very well. Struts about like a diva.

Plant Girl + Multi Arms (Physical Change) + Life Guard (Theme) + Boob Tent (Misc)

A plant girl, but one based off of sea-life. Her body could be modeled after a coral reef, with bright, florescent colors, and her new arms are just branches that grow naturally. She makes an off-hand comment about needing to snap off new buds every now and then when they grow in weird spots, and is actually a good swimmer. Just go full "Weird ocean entity" with this particular girl.

Salamander + Villainess (Theme) + Delusions of Grandeur (Personality) + Steaming (Unique)

Basically a newt in distress but not napalm express lady lizard who thinks she's a dragon because she's naturally got a higher body temperature and can do a little firebreathing, and just "hasn't gotten her scales yet" since it "Hasn't been 100 years" despite that not being how dragons work.

Turtle Girl + Milf (Lecherous, Personality) + Cleavage Pocket (Misc) + On Back (Pose, kind of a meme pick)

BIG MOMMY TORTOISE AND HER BIG BACK SHELL GON' TEACH YOU
SOMETHING REAL SLOW-LIKEOkay I got nothing, I just think a turtle girl should be older by default. Either older, or a TMNT reference.

Turtle + Pettanko + Late Bloomer + Body parts as clothes/ Petite

Turtle who takes pride in her flat, streamlined shell and body. Is slightly perturbed by first few ascensions but is otherwise okay with the small changes. Eventually has to come to terms with her new "power".

Plant Girl + Cyborg/Mech + Slowly Failing Chest Compression + Cleavage Pocket

A plant girl who was born without much mobility, so she had a mechanical movement device so that she could move, alongside a cybernetic arm. However, her clothes and cybernetic parts were not designed with rank ups in mind, causing her clothing and anything covering her breasts to fail. As she sees the advantage of her new breasts, however, she begins to use them as a means to store objects. This was admittedly a bit of a weaker idea, I might try to come up with a better one later.

Bee Girl + Multi Arm (Physical Change) + Monster+ (Physical Change) + Bubbly (Personality)

Could swap out multi-arm for Upside Down (Pose) Basically a very happy bee. Clumsy could work, but I dunno I always get happy when I see a bumblebee so I'm sort of just projecting it. Plus they're cute.

Human + Creepy Blank Mask (Clothing) + Upside Down (Pose) + Visible Magical Aura (Unique)

Just this unsettling weirdo that has a bone to pick with Rose. The exact nature of their relationship is vague, particularly since Rose has no idea who this person is, but this power seems almost familiar...

Voleian + Mom Bod (Bodytype) + Boob Tent (Miscellaneous) + Team Mom (Personality)

It's literally just Vuu's Mom Or a drunk aunt who never married

Computer Girl + Height Shrink + Gamer/Streamer + Clothing Item of some sort

Computer Girl gets more popular as time passes, choosing to upgrade her processing power, which shrinks her with each rank. She gets more popular with rankups as she ends up enjoying it, continuing to upgrade her computer and herself. Her clothing I'd think would possibly be a signature outfit piece or some merchandise. The height shrink reason could be due to the gamer/streamer reasons as well but there are a lot of options.

Kobold + Sharp Teeth (Physical Change) + Knife Nut (Personality) + Corruption (Miscellaneous)

Tiny kobold lady finds a magic knife, becomes increasingly good at stabbing and biting, but only wants to fight things above her weight class Given she is Very Small That means "Basically Everything" (Also some horn or teeth size increase would be lovely)

Shark Girl + One-Piece + Shorts (Clothing) + Baywatch Lifeguard (Theme) + Symbiotic Suit/Living Clothes (Clothes but it's a modifier for the one piece, kinda stretching it here)

Shark Girl who dove too deep but made a spooky friend, now they keep an eye on swimmers and help save them from drowning, monsters, or some combination of the two.

(Sea) Turtle Girl + Psychedelic Eyes (Physical Change) + Pet Rock (Prop) + Unaware/Oblivious (Personality, not on the list)

Poor girl's been eating so many jellyfish that she's talking to a fancy piece of coral like it has opinions and it definitely does, but only she can hear them

Cuddle Monster + Standing With Leg Up Classic Pinup Style (Pose) + Plushie of Another Character (Prop) + Overalls (Clothes)

Happy plushie lady makes tiny plushies of her friends. Unless i'm misunderstanding what a cuddle-monster is. This one's just puttin' in the real diabetes work.

Octopus Girl + Nippleless Nudity (Physical Change) + Multi Arms (Physical Change) + Artist (Theme)

So the idea here is that she has 4 arms and 4 legs for perfect symmetry and that fixation on it is a cornerstone of how her thought processes/general artistic output goes. Could swap out her ink-tank storage sacs for some good ol' Narcissism (Personality) and her statues are mostly just herself.

Shark Girl + Appropriate -Taur Variation (Body Type) + Feral (Personality) + nippleless nudity

Mershark girl who's quick to bite first and ask questions later. 3rd mod could be flexible

Snowgirl + nippleless nudity + bigger hips/butt + height shrink

A snowgirl where as she ranks up she gets hotter. She wasn't made to support a big chest, so she had to move some of the snow to her butt so she doesn't fall over

Trilobite Girl + Multi-Arms or Long Tongue + Trilobite Breeder (maybe some other theme could work too, I have a lot of good ideas in mind.) + Height Shrink says jokingly Digging through Own Cleavage

A sweet Trilobite girl who breeds more Trilobites. She still has the storage ability of actual Trilobites, digging through her cleavage for items she's stored. Likely has several

little Trills crawling over her body, one or two possibly in a sensual area. Either has a kinky secret in the form of a long tongue, or an extra pair of hands for extra groping.

Trilobite Girl + Big Butt/Huge Butt :eyes:+ Gamer/Streamer/Nerd + Foodie

Trilobite Girl with a really big butt playing some games while eating some fast food that more than likely attributed to that huge ass in the first place as she le games. Jiangshi + Lazy but Smart + Floor Length Hair or Impossibly Large/Long Hair + Mom Bod, or Undersized Clothes

Tomboy + Nun/priestess + Ogre

A holy assassin from the church of thighs, a heretic division in the Vuu-niverse on a mission to observe the other faiths and totally does not find rose and or Vuu cute, baka

Snowgirl + mitosis + supported by minions/goons + knife nut

A snowgirl with an affinity for knives. She notices her growing breasts and proceeds to split apart, creating more smaller snowgirl that support her, each one also being a knife nut.

Yuki-onna + contrarian.

Just a white skinned white haired beauty sunbathing at the beach.

Trilobite Girl + Contrarian (Theme) + Sharp Teeth (Physical Change) + Arms Crossed (Pose)

Rather than the timid and kind trilobites we see as pets, this one, having gained a humanoid form, has grown a strong ego and stubborn streak. She maintains the trilobite storage ability, but she's a hoarder and will fight anyone that tries to go for her stuff.

Kobold + jrpg outfit + Cowardly

A fake hero basically

Kobold + Pit Fighter/Brawler (Theme) + Hot Headed (Personality) + [Wild Card]

A very scrappy lil lizard who will run a mosaic of pain on your groin since it's the only thing she can reach

Kobold + Cute Maid (Theme) + Clumsy (Personality) + Large Tertiary Assets (Miscellaneous, Horns + Tail in this case)

A cute lil maid with a big ol' gator tail who's just trying her best but keeps knocking things over. Maybe she's abnormally strong but still tries to keep up the dainty/girly appearances.

Kobold + Archaeologist (Theme) + Motormouth (Personality) + Glasses (Clothing)

She's an energetic lizard explorer who's trying to find the secrets of the world and looooooves talking about it to anyone that'll listen. Tiny lizard Indiana Jones (Indiana Jane?) but more cheerful.

Trilobite girl + Gunslinger (theme)

AND THEY CALL HER THE SIX GUN SASPARILLA

Amazoness + breasts in a container + hot blooded(?)

Literal amazon delivery woman who will deliver to Vuu, damn it

Trilobyte Girl + Magical Girl + Ditzzy

The isopod sailor scout you've all secretly wanted in your lives

Trilobite Girl + Height Shrink + Shortstack or Big/Huge Butt + [Wild Card] (And Cleavage Storage since it's likely going to be default.)

Trilobite Girl getting shorter and stackier with time finding the stuff she stores in her tits harder to store as what she's storing in them don't shrink with her, though she is getting more room in the form of bigger tits at the least.

Cloud girl + large weapon (prop) + Rival (theme) + [wild card]

I AM THE STORM THAT IS A-PPROOOOOACHING

Space Marine + Obscured Face + Walking Armory

Wine Elemental + In a Bottle + Incredibly Drunk

basically a permanently drunk elemental living in a bottle that breaks it at Rank 5 or something

trilobite girl + Supported By Minions/Goons (Misc) + Eldritch Touched (Physical Change)
+ Trilobite Breeder (Theme)

basically a bug that went too deep into the sea and came out as a girl. Her chest storage is a portal to where more otherworldly lesser trilobites come from. They carry her around since she's not used to walking upright, and being upright keeps the portal open. It's two ways as well, so she can ball up without worrying about biological limitations or a giant shell.

Trilobite Girl + Pirate (Theme) + Breasts In A Container (Misc) + Multi Arm (Physical Change)

weird bug girl carries chest on her chest so she can surprise people with random bullshit between her boobs. something something pirate.

Trilobite Girl + Racer (Theme) + Petite (Body Shape) + swear word height shrink

yeah yeah small girl wants to race with the other trils that's it

Deer + Mom bod + Undead

Give Bambi's mom an other shot

Deer + Occultist + Eldritch clothing + Corrupted bodypart

I'm talking some real Wendigo energy but she's still a deer there are things that could be swapped out for Corrupted Bodypart like Mombod for like the "Occult Mom" aesthetic, or like a Skull mask to complete the Wendigo look, all sorts of shit I just think it'd be cool if she was like this angry forest spirit essential with some sort of eldritch attachment to it

I love deers aesthetically they're so powerful and intimidating I think that the deer girl could be as well

Deer + Etheral/spirit + shy

I'm thinking Mononoke Deer god, but its pale and ghostly looking, and some sort of avatar of a glen perfect for doing fairy circles and wiccan rituals. Bonus points if she's got big dumb elaborate antlers and a big flowy dress

Deer: Shy + Stalker Vuu fangirl + something

Stalks Vuu and collects memorabilia but darts away at the possibility of being seen by Vuu

Octopus Girl + Vergil Style Rival (Theme) + Breast Tattoos (Clothing?) + Freckled (Physical Change)

Extremely dangerous ring octopus girl who is like the one person Vuu wants to actually fight for some reason Could also swap out Freckled for Petite just for giggles

Magi Girl + Gambler

Local money-chan lives on the edge with lady luck, ranks get exponential as payout gets higher and she keeps doubling down

Jiangshi + Samurai (theme) + Schoolgirl Uniform (clothes)

Dullahan + Pirate + Clown

Female Buggy the Clown!

Petite + Exponential Gains + Bra Overflow

Maximize disproportion
