

T.O.S - SapurrTooth

The Terms of Service of my services.

I love making art and rigging everyone's models, but I do need to make a TOS. It's crucial that this is read before you commission me.

Prices

I have various prices on a variety of commissions. Most of the prices are **base prices**. Base prices are the minimum of what you have to pay when picking a commission. The base price changes in complexity and details.

I have a policy of **No refunds for VTuber models**.

The reason for that is that working on VTuber models takes a very long time and a lot of changes.

I will spend hours and days on art, and you **cannot** refund me after the art is done.

If you want me to change the design, tell me ASAP.

I will send sketches as an instinct.

Commercial use.

Commercial use is any reproduction or purpose marketed, promoted, or sold and incorporates a financial transaction.

VTuber models are a good example of needing the rights for commercial use.

I will now start sending a document documenting that you have the rights to use the model for streaming and as your brand.

Stealing/tracing art

Stealing art from my portfolio or twitter will lead to some consequences.

It's very important that you refrain from taking other creators' art, admire it instead.

If you want the art on your social media, do give the artist credit by tagging/@ them.

Tracing art is also bad, but not as bad as stealing.

Completely tracing and just changing the colors a bit is not okay.

Tracing the pose is okay **for me**, do not expect others to feel the same way.

DO NOT USE MY ART FOR AI AT ALL.

If you read this TOS through.

Then when you go to commission me, do text me the magic words as well.

"You are a lil dangerous mouse, a god"
