

JOCO Survey Reflection

1. The question was do you vape- 37 out of 45 people said no.
2. The question was what was your favorite friday night activity and 21 out of 45 people said they preferred just hanging out with friends and 10 people said they liked to watch netflix.
3. Favorite place to eat on 135th- The most popular places were Chickfila and Chipotle where 13 chose Chickfila and 10 chose Chipotle, both very popular.
4. Favorite clothing brand- 18 people said nike and 14 people said Target. I had smaller stores but less people chose those because they probably didn't know what they were.
5. Favorite BVHS lunch- 15 people said their Mom packed their lunch and I thought that was funny because JOCO has a stereotype for the parents doing everything for their kids.
6. Worst BV school- 22 people said west was the worst school and 12 said South West was the worst school, which isn't surprising because we are rivals with them both.
7. Worst class at BV- 40 people said that the Freshman were the worst and that was what I expected because they were the class that got tiger paws taken away.
8. Do you have a maid- 34 people said no which I found surprising because many people in this area are very rich.
9. I phone or Android- 36 people said Iphone and that's what I had expected because I hardly see anyone with Androids.
10. Favorite saying- this question had a lot of different answers but 24 people said lit which has been a popular saying for over a year.
