

Pulaski has been a part of the [Center Stage Program](#) through the Fox Cities Performing Arts Center since 2020. Through our participation, students are able to attend workshops with theatre professionals, including the touring companies of shows, such as Hamilton, Phantom of the Opera, Six, and many others. Students can audition to be part of the Encore Singers, a group that performs throughout the year for various PAC events as well as at the showcase. Students can also apply to be an ambassador, who takes part in workshops and creates social media for events.

Adjudicators also attend Pulaski's musical performances and give us valuable feedback about our production. Based on the adjudication, our production and individual performers may earn special recognition at the Center Stage Showcase held in May each year.
