Sign in with Apple or Google is optional. If you sign in, your usage and subscription can be securely tracked across devices and reinstalls. When you use the app, we collect the following:

- **Account Information (optional):** If you sign in with Apple or Google, Apple may share your name and a private relay email; Google may share your name and email. We do not collect or store your Apple ID or Google password. We store your Supabase user ID linked to your usage and subscription.

#### 3a. AI and Third-Party AI Services

---

**What we send:** When you use any AI feature — scanner, chat, calculator, Quiz Generator, Flashcard Generator, Import & Summarize, Study Plan, Style & Tone Refiner, AI Detector, AI Image Generator, or Transcribe Notes — we transmit the content you provide (photos, text, files, audio, video) to our AI provider stack. This is necessary to generate your results.

**Who receives it:** OpenRouter and model partners including OpenAI, Anthropic, Google, xAI, and DeepSeek. We do not sell your data to any party.

**Your consent:** You will see a one-time consent screen the first time you use the app. Data is sent to our AI provider only after you have consented.

**How it is used:** Solely to (1) generate answers and study content for you, (2) improve the quality and safety of AI systems, and (3) comply with applicable law. All providers are contractually required to provide equivalent data protection to this policy.

### 4. Third-Party Services

---

To deliver our features, we partner with trusted providers — all bound by confidentiality agreements:

- **OpenRouter + model providers:** AI routing and model stack that processes your inputs to generate responses.

- **Sign in with Apple / Google:** Optional authentication. Apple may use a private relay email. We never receive your password.

AdMob may collect device identifiers and use data for ad delivery, measurement, and personalization. You can manage ad personalization in your device settings or Google account. We never sell your personal information to advertisers.
