

ITALIAN MINISTRY OF HEALTH-UPDATE

Italy has become the first Country in the world to conduct an "AUTOPSY" on a Covid-19 dead body, & after carrying out a comprehensive Scientific investigation they found out that Covid-19 as a VIRUS doesn't Exist, it's all just a Global Scam...

People are actually dying as a result of "Amplified Global 5G Electromagnetic Radiation Poisoning"...

Italian doctors, disobeyed the world health law (W.H.O), Which is NOT to carry out AUTOPSIES on the dead bodies of people that died of Coronavirus and after their Scientific investigative research, they found out that it is NOT A VIRUS but a BACTERIA that causes death Which also causes blood clots to form and causes the death of the patient.

◆ Italy defeats the so-called Covid-19, which is nothing other than "Disseminated intravascular coagulation"(Thrombosis)

◆ And the way to combat it, that is, its cure, is with "Antibiotics, Anti-inflammatories and Anticoagulants"(ASPIRIN)

Indicating that this disease had been poorly treated.

This sensational news for the world has been produced by Italian doctors by performing AUTOPSIES on corpses produced by the So-called Covid-19.

◆ Something else, according to Italian pathologists. "The ventilators and the intensive care unit were never needed."

◆ Therefore in Italy the change of protocols began, IN ITALY THE SO-CALLED GLOBAL COVID-19 PANDEMIC IS REVEALED NOT AS A VIRUS The WHO & Chinese already knew and did not report it.

THE WORLD NOW KNOWS THAT WE HAVE BEEN DECEIVED AND MURDERED BY OUR SO-CALLED OLDER PERSONS!!!!

Please Pass this on to your entire family, neighborhood, acquaintances, friends, colleagues, coworkers e.t.c...

If they get to contract the Covid-19 which is NOT A VIRUS as they have made us believe, but a

BACTARIUM Which actually has been Amplified by 5G ELECTROMAGNETIC RADIATION that also produces INFLAMMATION and HYPOXIA

They Should do the following:

They are going to take Aspirin 100mg and Apranax or Paracetamol, Why???...because it has been shown that what Covid-19 does is to clot the blood,causing the person to develop a thrombosis and the blood not to flow and not oxygenate the heart and lungs Which makes the person to die quickly due to not being able to breathe...

In Italy they screwed up the WHO protocol and did an AUTOPSY on a corpse that died from Covid-19,they cut the body and opened the arms and legs and the other sections of the body and realized that the veins were dilated and coagulated blood and all veins and arteries filled with thrombi, preventing the blood from flowing normally and bringing oxygen to all organs, mainly to the brain, heart and lungs and the patient ends up dying,Already knowing this diagnosis, the Italian Ministry of Health immediately changed the Covid-19 treatment protocols,and began to administer to their positive patients Aspirin 100mg and Apranax

RESULTS???: The patients began to recover and present improvements and the Ministry of Health released and sent home more than 14,000 patients in a single day.

AWARENESS ON A NEW STRAIN OF COVID-19

Howdy all? Please I know 3 people who have died of COVID in the last 36 hours. Sir Remi Omotoso (past Chairman Standard Chartered Bank), Mrs Musiliu Smith (wife of the former IG) and Chike Anosike (a fellow LBS alumni). I know many more who have passed or have contracted the deadly virus. COVID-19 is real!!! Please let us take MAXIMUM efforts to protect ourselves. Sir Omotoso did not leave his home in 3 months, yet he died. Mrs Smith went out last week for the first time in 3 months and within a week, she died. May the Lord give us the wisdom to choose our actions wisely

My sources inform me that the pandemic seems to have entered a 2nd phase in Lagos with elevated levels of new infections, the current strain also seems to be more virulent. Please don't let your guard down, it's been a long haul but we must reach the finishing line

All my NCDC sources affirm the claims of a more virulent strain with suggestions that Doctors are considering downing tools because they not only lack resources but this new strain is not something they know anything about

Apparently kills within 4-7 days with symptoms resembling Esophagitis but more aggressive and fatal

Guys if you didn't believe this thing before and thought people were just counting scores... please take it serious now.

This movie is just about to start

STAY AT HOME IF YOU CAN
