INSTRUCTIONAL MATERIALS SELECTION

The board has sole discretion to approve instructional materials for the school district. This authority is delegated to certificated staff to determine which instructional materials, other than textbooks, will be utilized by and purchased by the school district.

In reviewing current instructional materials for continued use and in selecting additional instructional materials, certificated staff shall consider the current and future needs of the school district, as well as the changes and the trends in education and society. It shall be the responsibility of the superintendent to report to the board the action taken by certificated personnel.

In the case of textbooks the board shall make the final decision after receiving a recommendation from the superintendent. The criteria for selection of other instructional materials shall apply to the selection of textbooks. Textbooks shall be reviewed as needed at least every seven (7) years.

Educational materials given to the school district must meet the criteria established above. The gift must be received in compliance with board policy.
