

Hour of Code Project Ideas

- Interactive Art
 - Using the sound/keyboards to draw in
- 10 Block Challenge
 - Good way to get started
 - Watched examples of things that were created in 10 block challenge - this is how I did my 10 block challenge
- Community Project
 - How can all these projects come together
- Scratch Cards
 - 1 pagers
- Tying it into particular subject areas
- Remixing a project
- Remix starter projects
- Dancing - starting with a premade projects
- Involve different media as much as possible
- Sound/music/graphics
- **Utilizing the TIPS window in Scratch** - having a specific Scratch Hour of Code Steps Window
-

Stand Alone vs. Teacher

- Avoid being a tutorial

Sample Projects

- Nice Graphics
- Voice
- Video Sensors
- Racing
- Connections with other people/greeting cards/birthday cards
- Characters Dancing
- Stick figure in different poses - programming them to script them in different positions, add music, kids dance along

Group 2

- Simulations/Games related to particular subject areas
- Music in projects
- Pen Tools to Write Names
 - Have them write their name with the pen tool

Group 3

Hour of Code Project Ideas

- Doing a theme - like something fishy
- Bringing simple shapes/dots to life
 - interactions
 - so many potentials with just a simple dot
 - narration and throwing out ideas of what people have done in Scratch
 - give people ideas because the blank screen is intimidating
 - backwards design - I want to do this - what types of steps do you need to take to get there
- Partner students up to complete projects
-
