

Privacy Policy for "Bouncy Skate Bistro"

Last Updated: July 2, 2026

The **Bouncy Skate Bistro** development team ("we", "our", or "the App") is committed to protecting the privacy of our users. This Privacy Policy explains our practices regarding the collection, use, and disclosure of data within our simulated gambling and arcade mobile application.

By installing and using this application, you agree to the terms outlined in this document.

1. Age Restrictions and Intended Audience

Bouncy Skate Bistro features simulated gambling elements, wagering themes, and arcade mechanics designed exclusively for an adult audience. This App is strictly prohibited for individuals **under the age of 18** (or the corresponding legal age for simulated gambling content in your country or region). We do not knowingly collect, request, or maintain data from minors. If we discover that an individual under the required age has provided technical metrics, that information will be purged from our records immediately.

2. Technical and Non-Personal Data Collection

To ensure smooth gameplay, optimize system performance, and resolve unexpected runtime issues, the App automatically logs standard, non-personally identifiable technical information:

- **Hardware Configurations:** Handset model, operating system version, screen resolution, and unique mobile Advertising IDs (such as Google Advertising ID).
- **Gameplay Analytics:** Session durations, high-score benchmarks, internal feature interactions, and automated crash logs.

We maintain a strict policy against collecting personal identification details (such as your full name, physical address, phone number, or government documents) within the standard gameplay environment.

3. Third-Party Frameworks and Services

We partner with third-party service providers to deliver in-game features, display advertisements, and monitor overall system health. These external networks handle data under their own independent privacy frameworks:

- **Mobile Ad Networks:** Integrated to serve contextual advertisements and rewarded video placements suitable for mature audiences. These networks rely entirely on anonymous device advertising keys.

- **Backend Diagnostic Providers:** Automated tools used to track performance drops, runtime exceptions, and operational errors.

4. Purpose and Utilization of Processed Data

Any technical or anonymous data processed by the App is utilized strictly for the following internal operational improvements:

- Maintaining and optimizing the virtual economy and simulated wagering mechanics within **Bouncy Skate Bistro**.
- Identifying software bugs, preventing exploits, and improving device compatibility.
- Measuring the delivery efficiency of integrated promotional banners and rewarded placements.

5. User Control and Advertising Preferences

Users retain absolute control over their mobile advertising keys. You can reset, restrict, or completely disable personalized ad tracking at any time via your operating system settings:

- **Android OS:** Settings -> Google -> Ads -> Reset Advertising ID (or Opt out of Ads Personalization).
- **iOS OS:** Settings -> Privacy & Security -> Tracking.

6. Amendments to This Policy

We reserve the right to modify or update this Privacy Policy at our discretion to align with changing app store regulations, technical frameworks, or legal standards. All updates will be published directly on this page with a revised modification date.

7. Contact Infrastructure

For any questions regarding your data privacy, compliance inquiries, or technical feedback concerning **Bouncy Skate Bistro**, please direct your message to:
