MOVEMENT MADNESS**

Movement Madness gives kids a great place to release their energy after a long school day, throughout the summer or on a school day off. We provide encouragement that builds self esteem, movement to keep them healthy, games to teach sports skills, teamwork and sportsmanship along with fun and laughter with new and old friends to develop social and emotional well being. Movement Madness is the Denver, Colorado-based sports and fitness after-school enrichment program that provides students with an hour or more of fun, physical fitness and activity in a fun and non-competitive environment. Movement Madness began in 2006 at Steele Elementary and was created by mom of three and former teacher Jenny Cargile. Our classes encourage kids to get their bodies moving, learn and improve sports skills and work on team building and sportsmanship – while having fun! We do this through a variety of fun, fast pace physical education games. Kids need to get moving and this is what we do at Movement Madness. We provide a fun and exciting way for kids to get/ stay fit mentally , emotionally , socially as well as physically. Offer kids a fun way to get the needed 60 min. of vigorous exercise a day in non-competitive physical activity games. Teach the importance of daily physical activity and the ability to participate in sports / fitness classes throughout life.
