

SL- How a broke nurse learned to make \$100k from her Instagram

Dear friend,

If you can't figure out how to increase your business's profits on Instagram,

I want you to take a look at the picture below.

1- Membership: \$30,000-\$40,000/month
IG University has a monthly, 6 month, and yearly subscription

2- Programs: \$10,000-40,000/month
These are live trainings that I run and they are usually 2-4 weeks long

3- Coaching: \$20,000-\$30,000/month
I take on 3-5 1:1 coaching clients per month but I also have group coaching (miniminds)

4- Masterclasses: \$5,000-10,000/month
This income comes from launching new masterclasses and selling the recording of past masterclasses

Did you get a good look?

What it shows are the four ways I use my Instagram to make over \$100k per month...

So believe me, if you want to make money from your IG account, I can tell you exactly how to do it!

Even if you don't know how to apply the knowledge you learn from watching free videos.

And best of all, I can show you how to reach your first \$100k month (**very** fast) without spending hardly any money.

Listen: My name is Myla Leinweber and I was like the normal American who felt like they could do so much more...

My job didn't give me any fulfillment.

I was taking blood tests, reading and writing reports day in and day out... as if I was a robot.

So I looked for other ways to feel *fulfilled* during the 8 hours I was at work.

That's why I started educating people about business on Instagram.

And in 12 months, I went from making \$2k a month as a nurse to making \$100k in one month!

Here's how I did it:

I created a simple 4-step plan that I call **The IGU strategy**.

It works by following a 243-year-old marketing strategy that involves humans' secret desires and fear.

(It sounds hard to understand but it's like a simple 1-2-3 checklist)

The best part?

I let a few people in on the nitty-gritty detail of the IGU plan to make sure my success wasn't just dumb luck...

And they're all making \$10,057 to \$98,456 a month...

And now I'm personally teaching anyone who asks about **The IGU strategy**.
