

Little Embers

Alder Callosum & Solvi

[Alder's Profile](#) | ❄️ | [Solvi's Profile](#) | ❄️ | [Dawnbreak](#)

Important Dates

Deadline to Apply: May 26, 2026 @ 11:59 p.m. MDT

Birthdate: June 14th, 2026

Introduction

After two years of near-cardiac events every time they were within orbit of one another, Alder Callosum and Solvi have attained access to their communal brain cell and now there are little hellions on the way. This litter will be born and raised in Frostfang Vale, Dawnbreak, but has ties to family in both Elysium and Northfall.

They will bear the Callosum last name and be raised by loving and doting, if sometimes clumsy, parents. Alder and Solvi may not always make the correct parenting choices, but they will be present for whatever fallout may come based upon those choices.

Litter/Family Dynamics at a Glance

- Alder brings a bevy of familial connections to the board, being one of Amaranth and Valeska of Elysium's children. They have two additional grandmothers in Solvi's mother, Ylva, and step-mother, Brynhild.
- They will reside in Dawnbreak, where Solvi is a mender.
- This litter will grow up alongside Tiberii and Shiloh's litter, too, meaning there will be plenty of opportunity for threading with kiddos who aren't siblings.
- With their parents being proficient in various skills, there is ample opportunity to build healing arts, fighting, seer/mystic-type abilities.
- Both parents will be present and active in their children's lives.
- Children will be exposed to common, Russian and Mother's Tongue (Norse/Icelandic) for languages.

Adoption Rules

1. Form:

- **Pup Name:** Solana or Magnus
- **Personality:** While there's no telling what will happen IC to change this, give us a rundown of how you generally view your kiddo.
- **Inspiration/Archetypes:** Titles such as "The Honeybee", words, phrases or concepts that inspire you for the character.
- **Plot Interests/Goals:** What type of plots or goals are you interested in? Example: mastering healing, etc.
- **Writing Example:** A brief example of how you would write the character!
- **Additional Information/Inspo:** Moodboard, pinterest boards, playlists - anything that gives you inspiration for them. Not required, but welcome!
- **Second Choice Pick:** Optional - just in case your first choice is adopted out to someone else, but you still want to be part of the litter.

2. Activity requirement: While we respect all activity levels and we understand that life can make posting difficult at times, we also want to be sure these pups are at least maintaining 1 post per 3 months to remain active, but we would like to see them posting at a greater frequency as well! We will try our best to provide ample opportunity for you to wedge into one-on-one and group posts, but our DMs/family chat is always open if you're struggling. We are happy to help figure out a solution if you're feeling lost or need a bit of help getting on track. :) However, should a pup go inactive without contacting us/responding to attempts to contact you, we will take them back to be adopted back out.

3. Post requirement: Pups' designs are 100% yours after 80 posts. There's no deadline on this. The post count resets if the pup is adopted out a second time (so if it comes to second player with 20 posts, the new owner will need to have 100 posts on the account total since 20 were not their posts). This number spans

between “lives” in the event a pup dies for whatever reason and is reincarnated, so you won’t lose any ownership progress!

After your 80 posts, the design is all yours – as is their Toyhouse profile, which we will then transfer, and all art we provided. Each pup comes with an Arkana chibi and a mini from Chirpeax in addition to the original design made by Karle and Tasha. At 80 posts, the design will be transferred to you on Toyhouse. You are no longer subject to a pup being taken back due to inactivity or leaving the site at this point.

In the event the pup is taken/given back before you attain ownership, all original assets remain ours. If you have purchased art of the character while it was being played by you, please let us know – there’s a very good chance we’d like to buy rights to it to keep it with the character! Otherwise, you may repurpose the art for a different character.

In the event you want to sell the design after fully owning it, we reserve the right of first refusal – meaning we would ask that you please offer them to us to purchase before opening them to the general market. Ideally, we would like to keep the adopt in the family and permitting us to purchase them would make that possible.

4. If you decide to leave Vivarium before 80 posts, the puppy will be transferred back to us. If you have our design, that will come back to us. If you have your own design, the “child” will return to us, but you can keep your design!
5. Please avoid immediate killing/kidnapping/death/maiming. Or, check in with us! We love chaos, as long as it is communicated!
6. Please note there may be off-screen activity. This means there *may* be events/situations/assumptions communicated OOC that should translate to IC (*this will be discussed before happening!*) We will do our best to have threads for whatever is possible, but please understand there may be instances where things need to be hashed out OOC – especially if there’s threads that need to be sorted out before the next.
7. Ultimately, communication is key. This is a family group of mixed speed posters! We encourage both IC writing and OOC communication to make a happy family. We look forward to seeing your applications!

Available Designs

Solana

Sex: Female

Height: Very Short to Tall

Weight: Any

Build: Slender

Solana is inspired by her father's grandmother, Viscaria. She is named after the nightshade flower carrying the same moniker. Viscaria was murdered by Cypress, who was later killed by Alder in an act of vengeance. Cypress has been reincarnated in this litter as Hemlock. Applicants are welcome to use the loose personality we have in mind for Solana, which is one of impulsive nature, bold and adventurous; she always seems to find trouble - or perhaps it finds her.

Mutations: Elongated fur on feet (Will be rolled for Mark of Mythris)

Magnus

Sex: Male

Height: Tall/Very Tall

Weight: Any

Build: Any

The dusk sky bleeding into night given corporeal form, Magnus stands out against his siblings. He borrows influence from Solvi's father, Ferghus, who she has learned died in her home world in more recent months. Solvi's relationship with her father was troubled, but he remains one of the strongest, most capable wolves she has ever known. Magnus means "great, mighty." Though open to the adopter to be used or discarded, we envision "Magnus" to be protective, worrying, and skeptical of others - his trust is hard won.

Mutations: Ear tufts (Will be rolled for Mark of Mythris)

Iva - or - Stellan

Sex: Any (Adopter's choice)

Height: Short to Very Tall

Weight: Any

Build: Any

With the tones of winter's first snowfall, this child borrows influence from both sides of its family, making it a bit of a melting pot of inheritances. For those looking for a springboard, we imagine this child to be calm and serene, a little on the reserved side with a pensive mind. "Iva" means "Willow" in Russian, and Stellan means "Calm, peaceful one."

Mutations: Ear tufts, Overgrown Fur on Ankles (Will be rolled for Mark of Mythris)

Yelena

Sex: Female

Height: Short to Very Tall

Weight: Any

Build: Any

Her name means “shining light” and we head canon her as being quiet and closer to the shyer end of the spectrum among her siblings. Our ideas include her taking an interest in Solvi’s healing arts, possibly picking the craft up under her tutelage.

Mutations: Overgrown Fur on Ankles (Will be rolled for Mark of Mythris)

Taken Designs/Littermates

Hazel, female (She/Her) (She's ok I guess) - *played by Tasha*

Nikolai, male (He/Him) (God's favorite) - *played by Karle*

Hemlock “Hemmy”, male (He/Him) (God’s least favorite)- *played by Boo*

So, you're interested?

If you'd like to apply for one of the puppies, please message either Karle (@karlekat) or Tasha (@foxfolly) on Discord with questions, applications, etc! You can also send us a DM on site to our OOC accounts (Karleesi, Tasha respectively), or post in the puppy application thread **HERE**.

Final disclaimer regarding art, as this has sometimes been brought up/questioned: As stated above, all art provided with these characters will remain under the ownership of Karle/Tasha until the provided post-count is met. If you buy art for one of our designs, and *we take back the design due to failure to meet the above rules*, please talk to us! We may be interested in purchasing that art from you! Otherwise, if we do take the character back, we would kindly ask you to take down/remove the art you purchased if that character no longer belongs to you.
