Do you want to learn how to change profile picture on TikTok?

Your profile picture serves as your digital representation on TikTok. First impressions matter, and a well-picked TikTok profile image can set the tone for your TikTok presence.

This article will give you a run-through of changing profile pictures on your TikTok account.

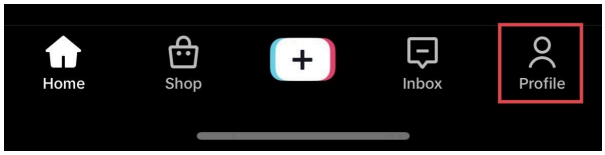

The following are the steps you should follow when doing so:

1. Open Your TikTok App

Start the TikTok app on your mobile device. Ensure that you are logged in to your TikTok account.

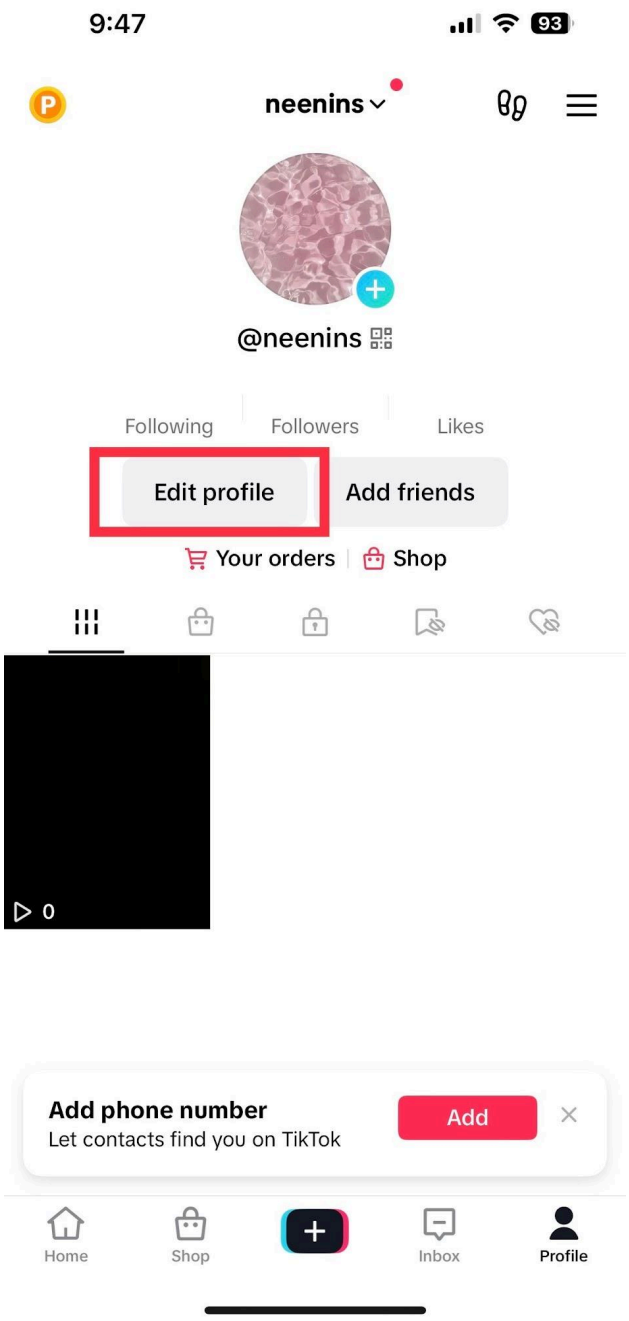

2. Go to Your Profile Page

The profile icon is the last at the screen's bottom right corner. Tapping this will lead you to your TikTok profile.

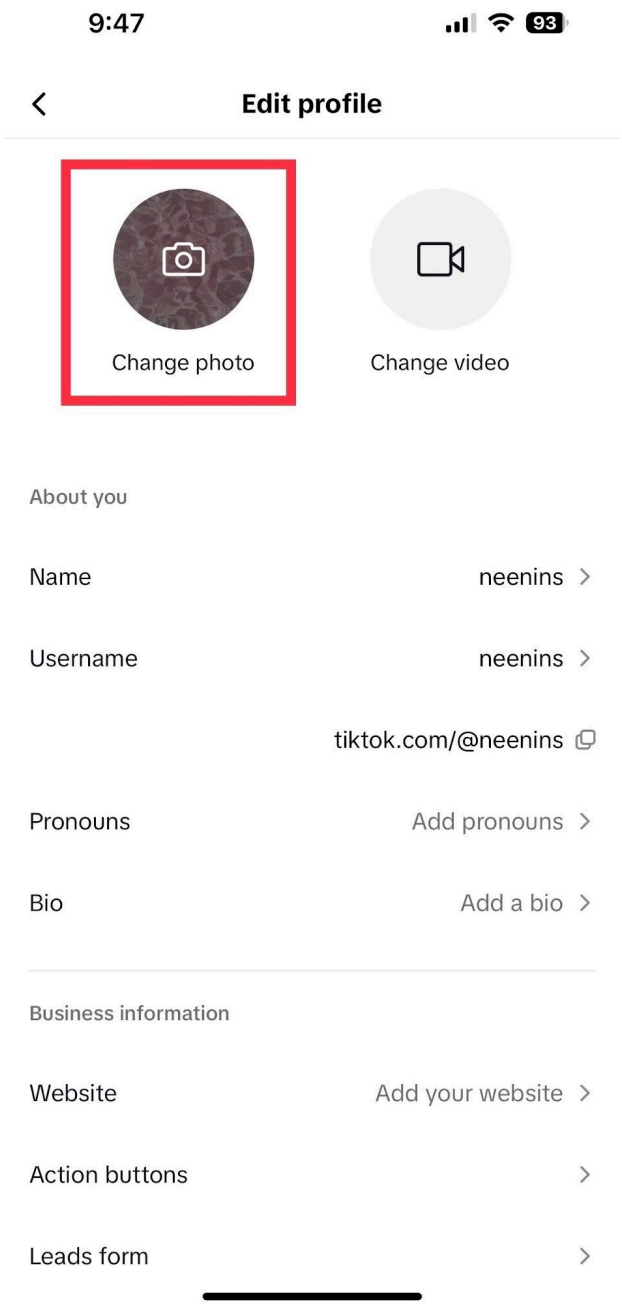

3. Tap "Edit Profile"

Once you are on your profile page, you will see an "Edit Profile" button. It is situated below your profile picture. Tap on it to proceed.

4. Tap “Change Photo”

Tap “Change Photo” if you want your profile picture to be a still image. You can also tap “Change Video” to use a profile video instead. If you want to use a video, select a clip that lasts up to only 6 seconds.

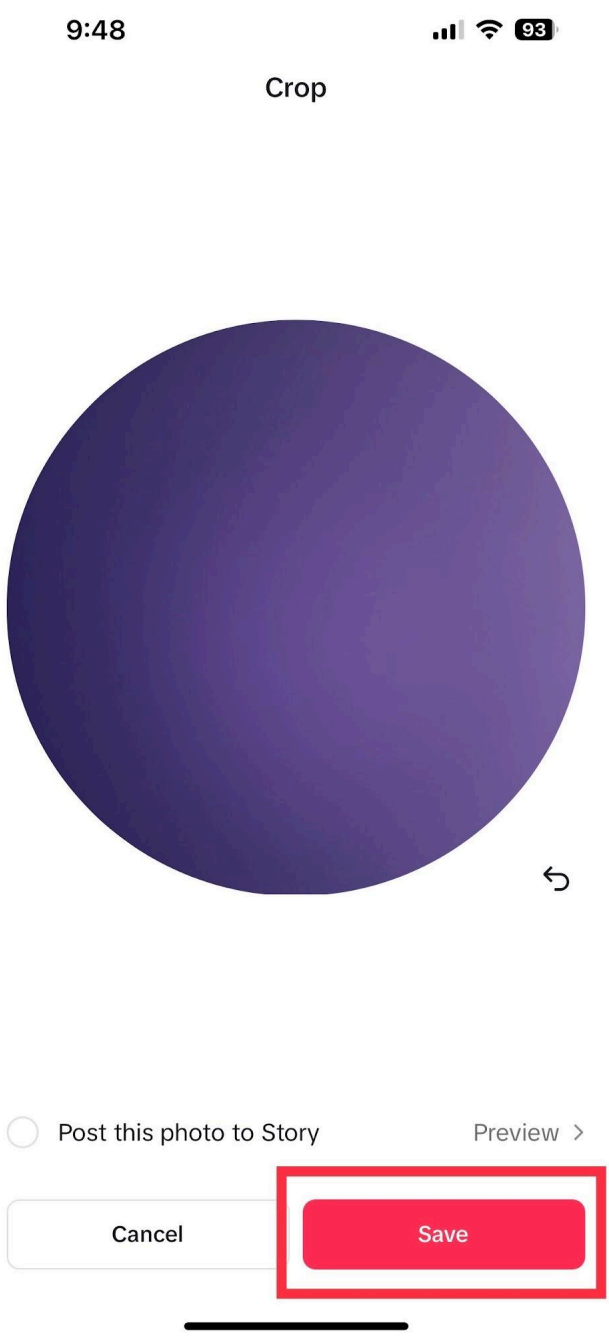

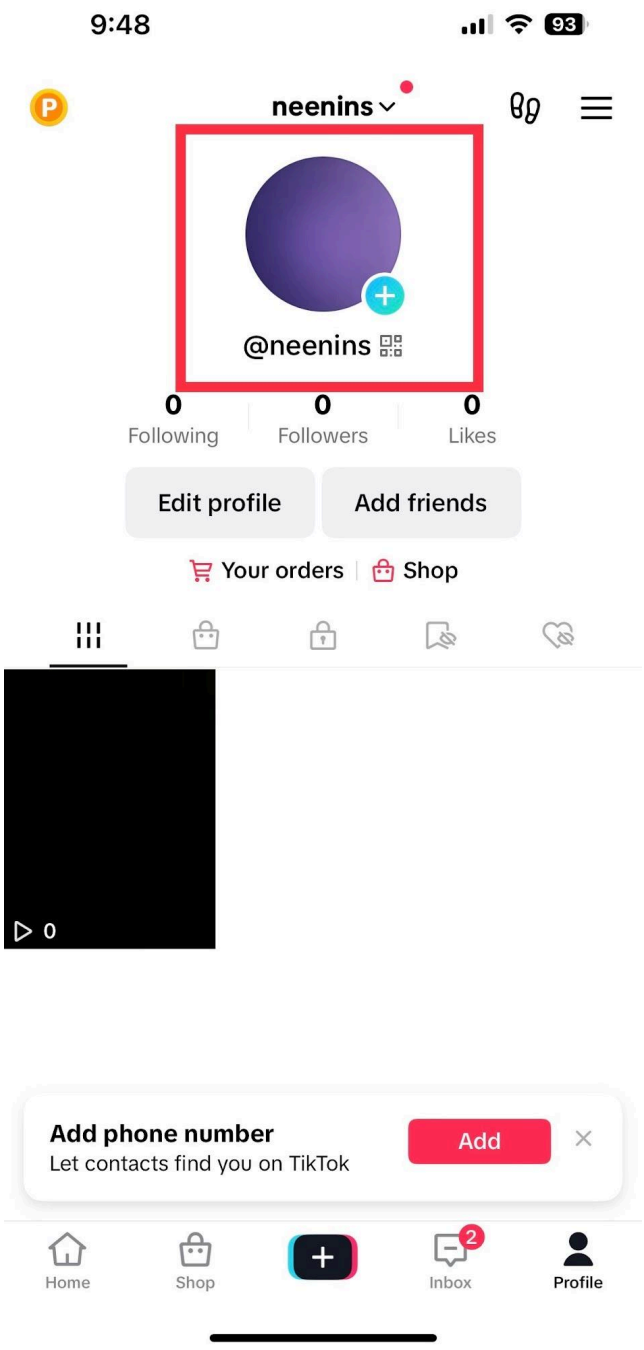

5. Select Your Photo (or Video)

Select the photo or video that resonates best with your branding and personality. However, you must ensure your photo or video doesn't violate the app's community guidelines. Violation of the app's guidelines could result in the account's suspension.

6. Tap "Save"

Once you're happy with the selected profile picture, tap the "Save" button. TikTok will confirm that your profile picture has been updated. Then, the new profile picture will appear.
