

Uni Guide/Walkthrough

This guide will go over how to get all of the CG's in the gallery as well as going into some of the mechanics and hard to get scenes for each of the routes in the game.

Routes

The game consists of 7 main routes. Four of the routes are for love interests: Damien, Matt, Kate and Violet. While the other two are for more corrupt jobs: Bar/Prostitution and the Bakery. A very rough outline of the route is listed below so people can avoid any content they are not interested in.

Damien: Shy, seemingly innocent and nerdy guy who you can date. Sweet MF relationship with potential to cuck him with Matt but that content is completely optional.

Matt: Harsh, uncaring bully with heavy male dom content. Matt's route can be completely consensual if you go along with it all but he can also blackmail you in his route. If you wish to avoid this or Matt in general he is easily avoidable by slapping or screaming at him at the start.

Nathan: The stoic and observative vice president on the student council with a focus on growing as people and strong MxF romance. Nathan is particularly difficult romance to end up on however so long as you don't take advantage of him he will always be there as a friend.

Kate: Sweet, naive waitress at the maid cafe. Wholesome lesbian relationship and cinnamon bun who must be protected. (Kate can be corrupted to be included in the bar route but this is completely separate from her romance)

Violet: Rich, high class, slightly bitchy girl in your class with family in very high places. Violet's relationship is heavily BDSM based with two variations, where you can be the dom or the sub respectively.

Bar: A branch off from the cafe job in which Chelsea (and possibly Kate) can end up working at a sleazy bar and prostituting themselves. Heavy sexual content.

Bakery: A job at a bakery in which your colleague and boss slowly corrupt Chelsea getting her to dye her hair and get boob implants. (Bimbofication and corruption)

Conflict Events

You can do all these at the same time during act one but once you hit day 60 and forwards you will start coming across conflict events between these routes if you are in the process of going down multiple at the same time. These events will force you to choose between the two routes involved, eventually ending with you being on only one route to continue the game and reaching route lock.

I will list out the key decisions in all the conflict events and all variations as well as a basic description of the result of choosing that option. The names and options will be colour coded to show who each decision is picking in case you do not want to read the description of the choice to avoid spoilers:

Damien | Matt | Nathan | Kate | Violet | Bar | Bakery | Neutral/Future decision

Damien/Matt:

"Lisa I'm not getting the surgery" = You turn down the boobjob and stay with Violet

Route Lock

Route lock is a point in one of the main scenarios in which you are now locked into that love interest/route for the rest of the game going forward. You can still access other side routes after route lock such as the clubs or walk around events which although some of these can lead to ends themselves are not entire main routes.

Gallery CG Guide

This section I will go through the gallery and list how to get each CG scene in the game. The CG's will be numbered from left to right (as shown in the image below).

Bakery

At the moment there is no need to detail most of these CG's as they are unmissable simply by continuing down the bakery route, those that are missable are listed bellow.

2: Lisa will ask you to manage the register while her and Keith do some work in the office. Agree and then spy on them both in the office.

3: For this one after either buying the makeup or not, the next time you go to work Keith will call Lisa into his office, choose to eavesdrop then crack open the door.

7: You must be on both Matt's route and working at the bakery, when Matt confronts you about the boob job lie and say you'll quit after getting it. You'll then get this cg at work after getting the boob job.

8: Unmissable on the bakery route after route lock.

Cafe

The Cafe CG section also includes the bar CGs as you can only access the bar by going through the cafe.

1: Unlocked at the start by not choosing to work at the bakery

2: Choose to remove your underwear while working at the cafe early on

3: When a customer in the cafe offers you extra tip to sit on his lap agree to do so, for the second part choose to wiggle around.

4: When a customer in the cafe offers you money to blow him in his car, agree.

5: Unmissable CG from working at the cafe

6: I believe you have to have agreed to the blowjob of a previous customer, then you will get another offer to go to the bathroom with a customer, agree.

7: Must have done the toilet event in the cafe, when asked to meet a customer in the alleyway agree. For this this one you also need to have corrupted Kate by pushing her to do more sexy things for more tips and then bring her along to the alley.

8: Same as 7 but don't corrupt or bring Kate to the alley

9: Must have seen the alleyway scene with a customer in the cafe, accept the customers offer to meet after closing and have corrupted/bring Kate

10: Same as 9 but without corrupting/bringing Kate

11: For this CG you need to not corrupt Kate or take up the sexual offers at the cafe and to start dating Kate and continue her route.

12: Do not corrupt Kate and bring her to the bar so it is only Chelsea working there. When Chelsea would normally hear Kate in the bathroom she is instead propositioned by a guy in the toilets, agree to have sex with him.

13: While working at the bar Chelsea will be groped while carrying a pitcher, tell the guy that it costs extra.

14: During the same event as 13, after the groping choose to ask Daniel to help you.

15: While working at the bar, have Kate corrupted and working there too and when you hear her moaning in the bathroom choose to peek on her.

16: After peeking on Kate in the above CG choose the big tipper and then approach the final guy when that fails or just choose the muscular guy

17: When Chelsea has her money stolen while working at the bar, take Daniel up on his offer to work as a prostitute to earn more.

18: For this CG you must be working at the bar and be on the dom Violet route (Violet is the dom). She will come to pick you up from work unexpectedly and you have to tell her you now work at the bar.

19: When leaving the bar and offered a lift from the married couple, agree to the lift and choose to suck off the husband.

20: A follow on from 19, invite the couple inside.

21: After prostituting yourself the first time, accept Daniels offer to do it again for a client with high endurance.

Damien

Damien has alternate versions/extra variations in his scenes based on his confidence. For this section I will say if it is high or low confidence, if you want more details on how to alter it check out the Damien guide further in.

1: Continue down Damiens route and meet him for coffee the weekend after you meet him.

2: Agree to the cinema date and let him pay for the ticket making it a proper date for the variations you need to lean against him with corruption less than 10 variation 2 and with corruption over 10 and then choose to give him a handjob for variation 3.

3: At the festival date, agree to date Damien to get this CG. There are three variations of this which are decided based on what you choose to do in the afternoon and evening at the festival of which I'll list the variations below.

Variation 1: food -> food OR shows -> games

Variation 2: games -> game OR food -> games OR games -> food

Variation 3: shows -> shows OR food -> shows

4: Be in the yearbook club and date Damien, eventually he will visit your club. Choose to blow him in the storage cupboard.

5: Be in the cheerleading club and date Damien, eventually he will visit your club. When he visits choose to try a new routine then sneak off behind the bleachers with Damien.

6: Be in the track club and date Damien, eventually he will visit your club. When showering after practice, invite Damien in with you.

7: You must work at the bar and be dating Damien. When getting groped while carrying a pitcher, choose the "that costs extra" option. Then when horny after, choose to message Damien.

8: This scene has four variations, a high confidence and low confidence one with further variations based on if you bought the nice underwear or not. To get this scene go home with Damien after the homecoming dance.

9: All the variations here are for the Aquarium date with Damien, all options bar the octopus lead to a CG, the shark CG costs \$200 to participate in the tank swim.

10: At the aquarium date when getting horny in the bathroom choose to call Damien. There is both a high and low confidence variant.

11: Agree to go to prom with Damien and agree to dance with him. The CG varies depending on if you criticise Damien during the dance or not.

12: Continue down the Damien route, he will eventually show up at your house and ask to play a board game with you. When playing choose to play with stripping as a forfeit. There are high and low confidence variations.

13: High confidence follow up of CG 12

14: Low confidence variation and follow up of CG 12

15: Unmissable on Damians route

16: On Damians route when visiting his house and playing board games in his room choose to give him a handjob.

17/18: Unmissable on Damians route

Kate

The CG's here are for Kates romance route, her corrupt bar CGs are under the Cafe section.

1: Work at the cafe, unmissable

2: Continue along Kates route normally. When walking around early on you will bump into Kate in town, agree to go get food with her.

3: When working at the cafe do not corrupt Kate. When she texts you saying she is sick, agree to buy her medicine then try to wake her up. There are alternate versions for kissing her head or using your hand as well as extra CG's for if you haven't told Kate about your parents yet.

4: Unmissable on Kates romance path, alternate variations for hugging or kissing her.

5 6 7: Unmissable on Kates route

8: 3 Variations one for each option of animal at the Zoo.

9: Unmissable.

10: Unmissable with a variation for if you let Kate take the lead or if you do.

11: Reach route lock with Kate

Matt

Unless specified otherwise, Matt's route requires you to let him grope you in the intro and not slap or scream.

1: Unmissable in the entire game, just play the intro.

2: Agree to meet Matt in the toilet when he tells you, for all CGs also remove your panties when ordered.

3: Refuse to meet Matt in the bathroom when he leaves a note. In the coming days someone will spill a drink in your hair, choose to shower it off then you will receive this cg revealing photos of you in the next event.

4: Meet Matt in the locker room when either asked or blackmailed. For him to allow you to cum you must follow his orders and not ask early.

5: Be on Matts route and have stopped Alex bullying Damien.

6: Be Dating Damien and on Matt's route. When Damien comes over to play boardgames text Matt after.

7: Slap Matt in the intro and stop Alex bullying Damien. Then when walking around you will be ambushed by them both, do not take the opportunity to escape.

8: Agree to meet Matt in Mr Harvey's room. Alternate variations for if you open your mouth or not.

9: Continue down Matts route, eventually you will meet his Mum at your work then he will show up at your house the next day.

10: Be on Matts route and be working at the bar. When you are groped while carrying a pitcher, choose that costs extra, then message Matt after.

11: Be on Matts route and have helped Damien with Alex. This will happen when going to school.

12: Be on Matts route but ignore Damien (don't stop Alex bullying him). This will happen when going to school.

13: Be on Matt and Kates routes. When on the way to Zoo to meet Kate you will meet Matt on the bus.

14: Be on Matts route and have had him blackmail you by either showering off the spilled drink or refusing one of his requests. Also have completed the Karaoke walk around events and earned the mafia favour. On day 36 when Matt visits your house, if you refuse or go along with him you will have the option to call in the mafia favour on him. Call in the favour and a few days later you will get this CG.

15: Be on Matts route and the bakery and get your hair dyed blonde. You will get this event at school.

16 17 18 19: unmissable on Matts route with one variation for 15 depending on if you beg Matt to fuck you or not.

20: Be dating Damien and on Matt's route. When Matt texts you to meet in the gym storage room and asks you to help him cuck Damien Agree but say you need time to think of a better way.

21: Be dating Damien and on Matt's route. When Matt texts you to meet in the gym storage room and asks you to help him cuck Damien refuse and then when he threatens you agree. There is a high and low confidence version.

22: Be dating Damien and on Matt's route. When Matt texts you to meet in the gym storage room and asks you to help him cuck Damien Agree but say you need time to think of a better way. This will then trigger a few days later.

23: Be dating Damien and on Matt's route. When Matt texts you to meet in the gym storage room and asks you to help him cuck Damien Refuse and when he threatens you refuse again. Variations depending on if you side with Matt or Damien before the fight.

24: Be dating Kate and when Matt comes into the cafe choose to tell him about Kate. This will then happen the next day.

Nathan

1: This is currently in the gallery under the other section. Simply continue down his route and it's unmissable. There is a romance and friend variant.

Violet

Violet has two variations, dom or sub. For this guide the title will refer to which Violet is, so Violet Dom has Violet as the dom and Chelsea as the sub. If you want to know how to get each of these, check the Violet guide further below.

1: Choose to go out for dinner with Violet when offered to invite her to yours or dinner.

2: When shopping with Violet, if Violet Dom pick all the options to get doors for her and carry her stuff. If Violet Sub choose to kiss her at the end.

3: Unmissable on Violet's sub route.

4: Invite Violet to your house instead of out for dinner.

5: When Violet is staying at your house, agree to share the bed.

6: Agree to skip work to go to the spa with Violet. Variations for if you let her massage you or if you massage her.

7: Violet Sub. Invite her to your house and choose to let her convince you to let her stay.

8: Violet Sub. When you tell her she's not allowed to cum, you will reward her at school the next day.

9: Violet Sub, choose to go out for dinner.

10: Violet Sub. Tell her you want to see her house. There are two variations, punish her or not.

11: Violet Dom, there is an extra scene if you masterbate when getting home but this will miss a scene later.

12: Violet Dom. Go round to Violet's house. There are two variations depending on if Violet is happy with how you act or not.

13: Violet Dom. Go out to dinner with Violet.

14: Happens after 13.

15: Violet sub, also working at the bar. One night working a customer will pull you on his lap and grope you, tell him that costs extra, then afterwards when horny choose to text Violet. There is a variation for both options, oral and getting her to use her fingers.

16 17 18 19: Violet Dom, unmissable.

20: Violet Sub. Go shopping with Violet. Two big variants depending on if you choose to have Violet masturbate or eat you out. If you have Violet masturbate there are two further variants depending on if you let her cum or not.

21: Violet sub, when given the option what to do with Violet tell her you want her to come clean your house.

22: Violet routelock, choose to stay with Violet

23: Violet routelock, tell her to stay with her family

Town

These events all trigger from walking around in town.

1: Have Chelsea flash someone at any point in the game.

2: When you meet a girl who offers to have you help at the car wash, agree to do so. There is an extra CG for high corruption.

3: Continue the cat calling events with Nate and his friends and eventually agree to join them drinking at the bar.

Extra

All: Backgrounds for various locations in the game, the only two possibly missable are number 5 and 6.

5: When walking around town and seeing a karaoke bar, go inside.

6: Do not have enough money to pay rent, then when the landlord comes to collect, offer to blow him instead.

Character/Event Guide

For this section I will do a breakdown for all routes, clubs and side events and how certain choices and values will affect those routes and the scenes contained within.

Damien

Damien's route has two variations to all of his scenes depending on his confidence. The scenes themselves are overall the same events but the way Damien acts and his confidence when dealing with other people and in the bedroom are the biggest differences. Damien's confidence is altered by the way that the player treats him throughout his events. Treating him poorly and teasing him will lower his confidence, while being supporting and caring will increase it.

The route starts on day X when you notice a student being bullied in the School Hallway. Choosing to help him will start his route (although you can easily back out at many other points before it turns into a relationship) while choosing to ignore him will have him only appear as a side character in some other scenes.

Confidence

Damien's route has two variations on how he acts and his confidence in general, with him either having high or low confidence. High confidence Damien will be much more forward and confident with Chelsea and others and also stand up for himself more while low confidence will be much more shy and more of a pushover.

I will not list every decision that leads to raising or lowering his confidence as it is in almost all options in his events however it is usually easy to tell which will raise and which will lower. Supporting him and his hobbies and treating him kindly will raise his confidence while making fun of him, babying him or completely dominating him will lower it.

Route lock

Damiens route lock can have many variations and outcomes and will start really moulding Damien into the type of person you want for his route. I would highly recommend experiencing it yourself naturally first as this will contain BIG SPOILERS for Damiens route.

The start of the routelock is mostly inconsequential as Damien brings you to his house with his parents out of town for a perfect date. Damien somehow knowing alot of your favourite things despite you never telling him. After going to sleep together you will either find or Damien will show you a book he has been making of all your favourite things, items from your home and pictures he has taken. This is where the big decisions come in:

Damien will be revealed to have MAJOR SPOILERS been essentially stalking you. Chelsea will freak and he will explain his reasoning at which point you will have various options. This scene is best seen for itself for details so I will clarify in a short summary for each option
Stay with Damien = Damien gains more psycho corruption and is happy

Break up = Damien begs and apologises and loses psycho

Give Damien a second chance = Damien promises to be better and apologises

Insist on breaking up = Damien snaps and attacks you

Call Police = Damien is arrested and you survive

Call Kate = Damien breaks in and kills you

Call Violet = Damien breaks in and kills you

Call Matt = Damien breaks in and kills you

Call Damiens Mum = Damien breaks in and kills you

Call the Mafia = Use the favour/pay \$5k or they wont come and you die

Matt

To start Matt's route you need to let him grope you on day 1. If you slap or scream at him it will not start his route and if you slap him and help Damien when he's being bullied in the hallway then Matt and Alex will try to assault you in a walk around event (which is completely avoidable and you can escape) but if you just want him gone the safest bet is to scream. However if you want to let him grope you and avoid his route later down the line then:

-Refuse to meet him in the toilets

-Don't shower off the drink spilled in your hair

Matt's route is more difficult to get out of as if you try to refuse him (or from the get go if you showered off the spilt drink) Matt will blackmail you with the pictures he has to make you continue and if you refuse it can lead to one of the only bad ends currently in the game. In order to get out of his route once he has photos of you, you need to trigger a conflict event between him and another route or to call in the mafia favour you receive from completing the karaoke walk around events.

In order to call in the mafia favour on Matt, you must complete the karaoke walk around events BEFORE day 36. Then on that day when Matt visits your house you will get the option to call in the favour. You can call it in whether you defy Matt and kick him out or go along with the pet play so you will not get a bad end for refusing Matt here if you call in the

favour after. The next events will play out over the next few days and Matt will never bother you again.

Nathan

Nathan's route will start naturally and progress throughout the entire common route/first act. He can exist in three states: as a friend, as someone he doesn't want to associate with and as a romantic partner.

To stay friends never try to pursue anything romantic or tell him to stop hanging out with you, it is simply that easy.

To romance Nathan is more difficult, I would encourage you to try it first as it can lead to some very interesting results but if you wish to know, read along. Nathan will refuse to date you if he does not know you well, if you don't respect his boundaries or if you try to cheat on an existing partner. He will NEVER date you if you are in a relationship with another character and will in fact end your friendship if you try. You can still be romantically involved with him if you break up with all other love interests before his route lock however. I will go into further detail as to getting into his route below.

You will meet Nathan naturally throughout the game, you cannot lock yourself out until you meet him putting up the Homecoming poster in school, here there are many outcomes:

Ask Nathan to Homecoming::

If you are dating Damien and going with him he will confront you:

Admit your mistake and go with Damien:

Nathan route will continue

Ask to go with Nathan instead:

Nathan will end his friendship with you

He will ask if it is as friends or a date:

Say a date:

If you have told him you're dating Violet:

Nathan will end his friendship with you

If you have told him you're dating Kate:

Nathan will end his friendship with you

If you have told him you're dating Matt:

If Matt is blackmailing you and you tell him:

He will agree to go as friends

Nathan will end his friendship with you

Say as friends:

He will agree to go with you as friends

Don't ask him:

Nothing happens

If you go to homecoming with Nathan you will have multiple opportunities to push things further. If you don't respect him wanting to go as friends and more than once try to force a

romantic encounter here he will end his friendship with you, otherwise he will have a great evening.

Eventually you will find Nathan playing with his camera after school. This event will continue normally unless you are working at the bar. If you are Nathan will bring up the place forcing people into prostitution and offer no judgement but will give you the option to quit.

Quit:

Continue route with possible romance

Dont quit:

Route will continue but you will be locked into friends only

There are two other conflicts which will occur with Nathan, one for the Bakery after seeing how Keith treats you and one for Matt.

For the Bakery simply quit when prompted and accept his offer to help you get a job where you are treated with respect.

For Matt, Nathan will approach you on day 57 to discuss your relationship, if you told him about Matt's blackmail before he will fully offer to help and feel free to skip to the help offered decision, but if not he will express concern over how Matt ahs acting in the past and the two of you hanging out.

Tell Nathan about Matt:

Nathan will offer help with getting rid of Matt

Accept:

Nathan will help you deal with Matt

Reject:

Nathan will leave the subject alone and you are locked out of Nathans romance but not his friendship

Say it's fine:

Nathan will respect your decision and your and Matt's relationship

The scenes will continue if not locked out and eventually you will go to a bookstore with him and the student council president. When leaving the store to eat with Nathan you will have the option to ask him out.

Ask him out while dating anyone else:

Nathan will end his friendship with you

Ask him out while dating no one:

Route continues

Don't ask him out:

Route continues

ATTENTION: At this point the next major Nathan event will happen after all other route locks. In order to romantically pursue Nathan you must NOT lock yourself into any other route, meaning you reject them in their route lock event or pick another love interest over them in a conflict.

Eventually Nathan will text you and invite you out to an ice rink.

Agree to go:

Route continues

Decline:

Route continues friend only

IF YOU AGREE TO GO you will have a full event at the ice rink

If you are on any route post route lock:

Route will continue as friends

If you are not on any other route:

Ask Nathan out:

Route lock

Don't ask him out:

He asks you out:

Accept:

Route lock

Decline:

Route will continue as friends

Kate

This route is for the full Kate route, for her corruption and scenes at the bar please see the Bar guide.

To start Kate's route the player must choose not to work at the bakery so they work at the cafe with Kate and while at the cafe not carry out corrupt actions with customers and definitely not encourage Kate to do the same. This means not pulling your neckline down, not sitting on the customers lap, not removing your panties and certainly not agreeing to blow customers in their car.

Eventually if avoiding these Kate will text you after a work shift asking if you are busy, tell her you're not and you can help and she will ask you to pick up some medicine for her, agree and you will be set to be on her romance path and not any corruption route.

Violet

Violet's route is split into two distinctly different routes depending on if you or her are the Dom in your relationship. Unlike other routes with variations like Damien's confidence a lot of the scenes are completely different for each of these routes. First I'll cover how to get onto each route.

The decisions that matter are all made during the trip to the spa with Violet on day 30. Below are which choices will push you more towards Violet being the **DOM** or the **SUB**.

When Violet says she's thirsty:

I can get it for you = 1 Violet dom point

Yes, thanks = 1 Violet sub point

No thanks = no change

When Violet suggests giving each other massages

Sure, you go first = 1 sub point

Sure, I'll give you a massage = 1 dom point

When Violet asks if you enjoyed/enjoyed giving the massage

I like doing things for you = 1 dom point

I like when you do things for me = 1 sub point

The whole days been great = no change

When Violet asks about your kinks

I prefer to be served = 1 sub point

I like being told what to do = 1 dom point

None that I can think of = no change

To get Violet as your sub you must pick all sub options or 3 sub and one neutral option or it will default to Violet wanting to be the dom.

After this it's impossible to miss Violet's content up to route lock but there are variations in scenes. These variations are mostly around Violet or you being punished by the dominant one in the relationship or rewarded, so deciding to punish or deny Violet if you are the dom or messing up things as the sub so that Violet will punish you will give different outcomes and sex scenes then rewarding her or perfectly following Violets orders.

Bakery

The Bakery is one of the starting jobs and at the moment revolves heavily around your interactions and manipulation of your fellow employee Lisa and boss Keith.

To continue the bakery route you need to go along with Lisa and Keiths suggestions and manipulations. It starts simple, acting dumb to customers, apologising to Keith and accepting his criticism. This will quickly escalate, buying sexy underwear, spending a crap tonne of money on a sexy outfit and makeup kit at the mall (if you can't afford the makeup don't worry, Lisa will give you another chance to buy it after the mall event).

Eventually you will be pushed to dye your hair blonde, agree to do so (which will lead to lots of reactions from the other routes including a unique sex scene with Matt if on his route). The final escalation will be being pushed to get a boob job to give you some higher calibre ballistics. In order to go through with this you will end up breaking off every other route before getting the procedure and then you will be locked into the bakery route.

You can disagree and agree with any mix of the above corruptions however you MUST dye your hair and get the boob job to continue the bakery route or you will eventually get fired.

You will eventually be locked into the Bakery route after getting the boob job. As you progress from here there will be multiple endings you can reach as well as variations of scenes depending on your decisions. For the endings there are currently 2: One you can acquire by refusing to drop out of school (You must drop out to continue the rest of the bakery route though) and the other you can get from choosing options that go against Keith

and Lisa after routelock and then choose to not trust them and find proof of what Keith is really up to.

For scene variations, the main one post routelock at the moment is dependent on how you act at Leons office party. If you do well, if you do poorly but make it up to him and if you refuse to make it up to him all have variations of scenes as well as varying consequence scenes down the line.

Bar

To start the bar route you must make sure to not choose the bakery as your job at the start of the game and to get hired at the cafe instead. Then at the cafe make sure you choose all of the corrupt options and “extra tips” from the customers. You can also corrupt Kate and bring her to the bar with you, for this you just need to encourage her to do things like you’re doing for better tips.

Eventually this will lead to you being offered to earn some “extra pay” in the cafe after hours. Accept this and the guy will leave his card and details and offer you a job at his bar. After this you will be called into Emelias office and she will fire you for your behaviour. If Kate is corrupted you get one final choice to tell her to stay or come with you and leave.

You will then work at the bar going forward with lots of options to let customers get a bit extra for some solid paydays. Eventually while working you will be pickpocketed and lose all your cash at which point Daniel the bar owner will offer you a way to make more money then you had in one night. To continue the bar route you need to accept which will lead to you prostituting yourself and when offered another chance to make money like that accept again.

Eventually the police will approach you with talk about the bar being tied to prostitution. Here you will have the option to tell them about it or not, which is the final chance to get out of the route.

- Tell the police about the prostitution

 - The bar is shut down

- Keep Quiet

 - You will remain on the abr route

Clubs

There are three clubs which the player can choose in the game, track, cheer and yearbook. Which club is chosen will not only affect which club route/scenes you will see if participating on weekends but also affect the player characters personality; influencing dialogue changes throughout the entire game depending on which is picked.

Track -> Hard headed, sporty, confident.

Cheer -> peppy, flirty, slightly air headed

Yearbook -> Shy, nerdy, unconfident.

Each of these routes can run alongside any of the main ones with some potential endings or game overs/route locks down the line depending on decisions. There will also be a more casual version for each club so you will never be forced to cheat on your main route (unless you make some pretty obvious decisions).

Track

The track route has not yet reached the branch between the more sexual and normal route however it is close, I will update this guide for it once the next few track updates have been released.

In the existing content, the only thing really needing a guide so far is the track meet practice race and the track meet. In order to get the best performance you can choose the below options throughout the track events.

- Pace yourself
- Pace yourself
- Don't push too hard
- Look at the floor
- Pace yourself
- Focus
- Pace yourself till the end

At the track meet itself, choose the options to concentrate on the race and not be distracted by the West Uni players along with the previous choices to get the best placing. The decision to get rid of the West Uni students using a significant other or not will also have a significant effect further in this route.

Cheer

The cheer club has two variables that can be affected throughout which will affect events and content. The first is affected in all scenes which is Olivia's corruption. This will alter a lot more down the line but for the moment the first big effect is if Olivia will choose the one piece or bikini in the beach shopping trip.

The second variable that has a big impact is the peer pressure from the team (but mostly Tracy and Vikki). This mechanic doesn't come into effect until the beach shopping trip event. The way it works is by making decisions that go against Tracy and the cheer squad build up peer pressure, which if it is too high the squad will then pressure the player into having to make a decision a certain way. There is an icon at the top of the screen showing the current status of the peer pressure so the player can gauge their current standing with the club.

The first instance of peer pressure is in the Cheer trip to the mall to buy swimsuits for the beach trip. Below are the decisions and outcomes:

When Tracy Suggests going to Mall for swimsuits

Peer pressure +1

Stick to your decision

- Peer pressure +1
 - Accept going to the mall

 - Accept sitting up front

 - Tell her to wear what she finds comfortable
 - Olivia will wear a one piece at the beach trip
 - Peer pressure +1
 - Tell her to wear a bikini
 - Olivia will wear a bikini at the beach trip
- When asked what swimsuit you'll wear*
 - I want to wear something else
 - Peer pressure +1
 - If you've done the bikini car wash walk around event*
 - You'll be made to try on the bikini anyway
 - Else
 - You'll try on the one piece
- That looks cute
 - You'll try on the bikini
- When Coach Clayton is buying the swimsuits*
 - Ask for a one piece
 - Pay \$80 for the one piece
 - If peer pressure ≥ 5
 - Tracey will force you to get the bikini
 - You'll wear a bikini for the beach trip
 - Else
 - \$80
 - You'll wear a one piece for the beach trip
 - Get the bikini
 - You'll wear a bikini for the beach trip
 - Get the bikini
 - You'll wear a bikini for the beach trip

Depending on peer pressure levels the final parts of this event will have different dialogue but no long lasting effects.

The next event peer pressure will take effect with also many variants is the beach trip itself. Here are the decisions, their results and the peer pressure effects.

Yearbook

The yearbook club at the moment has several decisions that will have an impact down the line however this is still a while off so I won't go into details in order to avoid spoilers for future content.

The main missable content is deciding to join in with DnD or not. I will update this section once the yearbook club is closer to the adult or normal split.

Friends

Alongside the main routes and clubs the player can also make friends at school. For this there are two particular groups which you can befriend, however you will eventually only stick with one due to them not getting along with each other. The first group is the popular bully group consisting of Kenzia, Mia and Simone who you first meet when they ask you for your homework. The second group is the more chill duo of Alice and Samantha, you will first meet Alice when walking around and you see a billboard advertising new headphones, then you will meet her again at School.

Walk Around Events

This section will cover chains of events that can happen while choosing the walk around option. All of these can be carried out alongside any route and are randomly chosen.

Karaoke

This route is incredibly straightforward. When offered to go into a Karaoke club choose yes and then when the room next door is rowdy, knock on the wall and then go choose to knock on their door when you get the chance and BOOM a new friendly Mafia group to sing KPOP songs with. (The decisions will take place over multiple visits to the club).

The route will be over once you are told the mafia will do you one favour. At the moment this favour can only be used on Matt (for details on how to do this see Matts section) but there are other options coming soon, I will update this section as they are added.

Catcalling/Nate and friends

The Nate and friends events will start with you getting catcalled on the street. This will continue several more times with various catcalling taking place. Respond however you like as they will continue regardless of if you get angry at them or not. Eventually you will bump into one of them while shopping, here again feel free to respond in any way it wont lock you out of further events.

After several of these events you will see the group outside of a bar. They will call you over and offer for you to join them for a drink at the bar. This is an important decision, if you want nothing to do with them then refuse and you won't see them again, however if you do go drinking with them you will get drunk and end up letting them take things a bit further then just dirty talk so if you do not want to cheat on a love interest or have any sexual content with the group make sure to refuse to join them.

Coffee Shop

The events of the coffee shop are straightforward. You will visit the coffee shop several times and notice a man looking in your direction who will get bolder over the visits before eventually sitting with you. You can end this event chain by either refusing the free coffee the man offers or just leaving instead of sitting with him.

If you do sit with him he will suggest exchanging numbers to be able to do some kinky RP via texts. If your corruption is 15 or greater then you will gain his contact number in your phone however if it is less you will instinctively be uncomfortable and leave ending the events.

Once you have his number the rest of the events take place using the phone. Select to contact Mr D and you can play through various RP scenarios with him over the phone.

Farmers Market

The farmers market is a pretty straight forward event in which if you go to buy or look at an apple at a fruit stall you will end up tricked into either paying an old lady money or helping

her work. If you follow the event line you can get a decent payday at the end but there are no major decisions to outline.

Strip Club

Go to strip club
Get fake ID for moneh
Give bouncer a bj
Get in and watch the show
Go again and get up on stage

Car Wash

The car wash event is a great set of repeatable events that can earn you a large amount of money and corruption. The choices are self explanatory, if you refuse to join the car wash or wear the bikini you will leave and end the event. If you do join in you will get a nice amount of money and an increase in corruption. If you do the event with over 20 corruption you will get the option to do something a bit more risky for a large tip.

Aeon

Aeon can be unlocked via either the yearbook club or a random walk around event in which you see an advert for it. Once you see this you can then download it on your laptop at home and for a small monthly fee (in game not real money) you gain access to the MMO. Playing Aeon works like a walk around event, it will take up a time slot but can be carried out through any other route and can be played anytime you don't have work, school, or another event lined up. To play, load it up on the laptop in your room and hit play.

On first boot, you will be prompted to pick your username for the game which people will refer to you as while playing, and to pick your class. The username functions like entering your name at the start of the game while the class will affect the content you eventually receive and how you play Aeon. The options are Guard(melee tank), Fae-touched(mage/support), scout(dps).

Like the clubs this will affect the content you will see, how certain other players interact with you and the armour and look of your in game character.

At the moment the writing for Aeon is sadly still in it's early stages so we have not reached any major decisions however I will list the choices in the early events that will have an effect in the future.

Asking to join Mldas party or not
Trusting Midas' kindness or being sceptical
Befriending HeroicPrincipal5 or not

In the first quest with the faithful party you can choose to avoid the slime boss at the end or not. Depending on your decision you will get an intimate CG with your avatar and the slime or not.
