Use Google Scripts without Being a Coding Expert

Session Description

As a self-taught, codecademy.com learner, the presenter began implementing Google Scripts about six months ago. This session will explore some ideas for (very) basic uses of Google Scripts. Attendees will walk away with a basic understanding of how scripts work, where to find pre-made, customizable scripts, and resources to help get started. Join us for an exploration of google scripts from a novice standpoint!

Strands: #gettinggeeky, #technical

Type of Session: Regular Session

Session Resources: [Presentation](#) ([link to other resources](#))

Presenter: Jody Bowie

Position: Instructional Design Specialist

Organization: Canadian Valley Technology Center

Location: Yukon, OK

Contact Email: jody@jodybowie.com

Website: jodybowie.com, twitter.com/fzzxtchr, google.com/+JodyBowie-fzzxtchr

Bio:

Jody currently serves as an instructional designer, at Canadian Valley Technology Center, but has worked in several roles in education. He began his teaching career in high school physics where he was recognized as an innovator in technology integration and became a staff trainer for Putnam City. He was recognized by his peers as teacher of the year for Putnam City and was a finalist for Oklahoma Teacher of the Year in 2011. Jody maintains student contact while teaching online at Southern Nazarene University.

Jody holds a Master's degree in Curriculum and Instruction and is currently working on a PhD. at Oklahoma State in education, with a focus on Educational Technology. Higher Ed ignited a passion for learning (somewhat late in life) and much of his learning in the area of technology continues to be self-taught and/or independent.
