

Advisory Working Group

The Advisory Working Group consists of over 550 members of global civil society who will be instrumental in ensuring that all voices are heard and represented in this Beijing+25 process. The Advisory Working Group consults the Advisory Group to the Core Group to make sure they are representing the needs and mandates of global civil society.

The group is completely open to join and meets every two weeks via Zoom to hear updates from UN Women, the Advisory Group to the Core Group, and Beijing+25 regional processes. Advisory Working Group members are also encouraged to provide their own input into these processes so that their voices can be brought to the Generation Equality Forums in Mexico and Paris.

If you have any questions or are interested in joining the Advisory Working Group, email Beijing25@ngocsw.org.
