

# Ms. Covington

Position: Science Teacher

Classes: Biology, Honors Biology, Accelerated/ AP Biology

## ABOUT ME:

Hello! I grew up in Queen Anne's County and graduated from **QACHS** in 2009. From there I went to the **University of Richmond**, where I earned a B. S. degree in Biology. After graduating, I went on to earn my Masters degree in Education from the **University of Maryland**.

In my free time I enjoy gardening, kayaking, visiting state parks, and tackling DIY projects around my house.

I am excited to start my **9th year** teaching science at QACHS!

## CLASS INFO:

The **Accelerated Biology (AP)** course is the first course of a two semester course at QACHS. Topics covered in this course include Biochemistry, Cell Structure and Function, and Cellular Energetics. Some of my favorite activities are Cell Organelle Speed Dating, Floating Leaf Disc Photosynthesis lab, and Daphnia Heart Rate lab!

This **Biology** course is designed allow students to explore life science topics in the context of real-world situations. My favorite activities include the Tragedy of the Commons activity, Bubble Model Membrane activity, and DNA Extraction lab!
