11 and I must tell you it is quite uncanny how specifically it happened exactly the way we said and therefore that deserves and I told you so oh I told your soul oh I told you so yes I told you so I told you so yes I told you I told you I told you so oh well I had to have fun with it tonight because we really did tell you so do you know why I sing that song do you know why I love that song because you need something in this world to trust in amidst all the voices that are out there you need something you can trust and I hope you have found that place at the conservative College under the tutelage

12 of Professor Toto you know not long ago while every conspiracy theorist called podcasters was telling you that Donald Trump was going to return with the military some said he was going to return with Elvis some were saying Dale Earnhardt now before you laugh at me before you laugh at that it's real people literally went to Dallas Texas by the truckloads to wait for the return of Donald Trump and it was going to be Dale Earnhardt and it was going to be uh JFK Jr that were going to bring him in and so many people were out there podcasters were out there Mary uh Mary Revere said I normally don't

13 look at these uh but Mary said when you have when you embellish I Told You So you're not being so humble I disagree here's why I told you so is a slogan for the conservative College not for me as a person but for the truth coming from this institution of learning and when we every time we do and I told you so we're telling you come home to where the balance is and where the

truth is so anyway while everybody else was telling you you know that the military was fixing to bring him back so forth and so on while they were doing all that Professor Toto told you over and over that Donald Trump would

14 return but I told you when Trump returns many of you didn't like it because you wanted to hear something more favorable to your mindset I told you Donald Trump's presidency will begin again if you will not that it ever ended legally but I told you that when Donald Trump's Maga Army took the House of Representatives that Trump would return I told you that in the midterms I did a show and I'm fixing to show you that show about two minutes of it the title of that class was Trump is back of course everyone thought I meant in person until they tuned in and I told them Donald Trump is back because

15 his government that he's been creating in the shadows of the winter White House has come forward the his government in the house has brought his influence back into the people's house and now I told you he would govern with a cell phone I told you we'd sit in the winter white house and govern with a cell phone well look at this picture ladies and gentlemen Donald Trump life like this one so much that uh he retweeted the phone call that he made on the last day of the last vote the last moment he made the phone calls two gates and all of them telling them to vote present he called the shots he

16 is in total and full control of Kevin McCarthy and tonight the title of my class is the speaker is spoken for what does that mean when you say that a certain girl is spoken for what are you saying She's Mine that's mine the speaker is spoken for and Donald Trump has spoken now he's mine yes he's a rhino oh yes all day long but you wait till I get through with tonight's class and you will see the brilliancy of the president from the winter White House but let's do this let's do a rewind before I explain to you why you can trust Kevin McCarthy let's do a rewind before I do an unwind I'm going to

17 unwind I'm going to show you the house documents you're going to see it all tonight you're going to get a clear understanding like crystal clear and you're going to see the plan is moving beautifully God's plan not Donald Trump's plan Trump doesn't have a plan he is a puppet in the hands of a sovereign God that sits high looks low and turns the heart of the key wherever he wants to turn it let's go back to November the 3rd which was a month ago and a few days go back into your feelings with me go back to where you sit there and you watched you watched this red wave that did not come in do you

18 remember the feeling you felt that night ah we've been cheated again you remember all of that the very next morning Professor Toto came on the screen and he told you the following watch carefully I'll be right back ding dong the wicked witch is dead in America the political career of Nancy pogrosi has come to a screech and halt thanks to a republican victory in the House of Representatives in the United States of America I want to give you uh an in-depth analysis today of yesterday's victories Across America and a few of our defeats I want you to understand without watching the mainstream news

19 I want you to know what really happened in America yesterday number one let's start with this simple fact if you want to know why there was not more of a red wave in the House of Representatives by the way I believe we'll wind up with at least 15 seats that we pick up we will have a good little majority it will be a little majority but let me tell you why that's amazing for us it's very important that you understand Kevin McCarthy is about to be the Speaker of the House all of the investigations that we as the Naga Republicans want to see take place will not or would not have taken place if

20 and I say if we had had a bigger Red Wave there would not be investigations in the hunter Biden laptop there would not be a true changing of the agenda now why because if McCarthy would have had if he would have picked up 10 more seats than the 15 that we're going to get all

of a sudden he would have had a cushion he would have had a comfort zone and been able to ignore the Maga house members he would have been able to ignore Marjorie Taylor green and Matt Gates and all of these voices that are going to be pushing him to do what president Trump tells them to do on the telephone okay so now

21 Donald Trump because there's such a small majority Donald Trump will have control of that majority Now Kevin McCarthy becomes beholden to president Trump's wishes and his government and his agenda whereas if he had ten more seats then he could disregard the alt-right voices and just be more Kevin mccarthyish but because God did not allow that cushion Now Kevin McCarthy has nowhere to go but the mega Republicans and now the mega Republicans will have influence over McCarthy I hate to compare it but just like Nancy Pelosi pogosi she had such a small majority that she had to cater to the squad

22 does it make sense to you now listen carefully Nancy pogrosi hated the squad she doesn't like the squad they were messing up her agenda but she had to cater for her caucus because her majority was so small if we would have swepted the house any more than we did Kevin McCarthy could have been a rhino I told you so oh I Told You So to the T to the letter to the DOT aren't you thankful right now that Yahweh the god of Heaven ignored your prayers aren't you thankful you did not get your red weight if you would have then you would have no influence in your government but God saw better and he

23 allowed it to be a small victory giving all the power to our people now when Donald Trump announced his candidacy for president I came on that night and told you once again what was going to happen Donald Trump will now govern through the house I have told you that for two years that Donald Trump would govern through the house while he was at the winter white house this is a night of victory and if you are not rejoicing then you are not seeing the big picture this is a night of Victory you have waited for it you have wept for it you have longed for it tonight is your night America Donald Trump

24 has returned through the house and if God if Yahweh would have given us a red wave instead of a red drippe then Donald Trump could not rule through the house when are you ever going to learn to trust God trust that America is in the apple of his eye she is an end time Israelite Nation she comes from the tribes of Vanessa and Ephraim she has a Birthright blessing given to her by her father Abraham she is in The Sovereign end time strategies of God's plans for planet Earth he cares about America did you hear what I just said in the last video Donald Trump will rule America through the house do

25 you know what everyone was telling me do you know what everybody was saying to me that night that knows so much they were saying no Professor Toto McCarthy is a rhino McCarthy is never going to push Donald Trump's agenda and you're right McCarthy is nothing but a rhino you cannot trust him but yet you can thanks to the master chess player himself your president America's rightful president Donald John Trump now I'm getting ready to unwind why you can trust him but before I do let me take you right now to three days ago four days ago whenever it was the beginning of the week when this drama

26 started the greatest week in the history of the House of Representatives you lived through it this week many of you were alarmed and I loved it I loved that the position good of the speaker of the house will no longer be a tyrannical position at one time and even up through Nancy pogrosy the speaker of the house was a tyrant the Speaker of the House gave the order everybody obeyed and there was no bucking the speaker it was tyranny in a microcosm and that has that was with John Boehner that was with every speaker of the house this week the house was set free from tyrannical government you live

27 through it you watched the Republic with your own eyes you watched a Revival of the Republic you lived through it your grandchildren will read about it you were there what you

thought was chaos was beautiful chaos what you thought was Discord was beautifully designed by God himself and it was Donald Trump that that was pulling every string in that room I watched it with these eyes if you allow anybody to convince you that Maga is dead if you allow anybody to convince you that Donald Trump has lost his pool darling Donald Trump is pulling and everything just look at the Supreme Court rulings

28 look at what's going on in the house don't ever believe these lies of the enemy so let's go back right now as soon as this clip is over I'm going to show you why you can trust Kevin McCarthy it's going to set your nerves at ease I promise you it's a great great week for America you have lived in a republic this week you have seen the beauty of debate you have seen the beauty of reasoning together compromising so that we can form a United Republican party somebody said our party is divided no no no no no now our party can unite you know why because we refused not to be heard we refuse to be

29 ignored we are at the table now and I'm fixing to tell you once I do the unwind exactly how many of us are at the table now because of these Mago Warriors you owe a debt of gratitude to Matt Gates you owe a debt of gratitude to Lauren bobert you owe a debt of gratitude to Roy chip all of these Warriors 20 of them that stood together until Trump had them stand down now some of you are confused as to why Marjorie Taylor green endorsed McCarthy from the beginning don't be confused let Professor Toto tell you because her demands had already been met she has been promised a position high

30 up in the McCarthy government if you will she would be a fool not to have voted for McCarthy with the position that she has been given that's going to give her great power and great authority to bring Maga to a great uh table to have great influence so she voted for McCarthy because of a position that's been granted to her you know what don't judge people if you don't know the whole story my God could I preach that right now don't judge until you know the whole story okay so ladies and Gentlemen let's go to the beginning of the week and watch just watch listen to every word as you hear while

31 ever just just listen it was uncanny just listen this is the hand of Donald Trump draining the swamp with his government I've been teaching you for months that Donald Trump takes control again the moment we win the house you're seeing the control of Donald Trump it's been over a hundred years since this has happened in the House of Representatives this man Trump on and on and on and they are holding the power in their hands they're not going to give it up because if McCarthy wins right now guess what happens to all of them they become uh put to the side they lose their power they lose their

32 ability to drain the swamp so don't be concerned this is a sideshow this is a freak Show this is a good thing because what's going to happen he's already losing the third vote you know how long it's been since this happened now what's going to happen after that third vote McCarthy who is determined not to lose the speakership remember McCarthy thought he was going to be the speaker when Paul Ryan became the speaker so Paul is not going to give up his speakership do you understand he's going to do whatever it takes to move these 15 votes into his column from Jordan now my dream is for Jordan to

33 become the speaker however that's probably a dream but here's the thing if McCarthy concedes to these now 16 Maga Heroes all of a sudden these 16 control the House of Representatives this is why we did not have a red wave Yahweh designed it that way Yahweh knew what was going to happen Jeffries will never be the speaker of the house okay this is what's happening this is a power play these 16 people you elected them to do this to not concede to Sister swamp you see sister swamp you voted for those 16 people to drain that swamp and now you're getting nervous because they're trying to drain it

34 when this third vote is over and they go to the fourth vote this could go on for a week folks

Congress cannot start today's January the 3rd it's the new session of Congress it cannot even begin without a speaker no one can even be sworn in we effectively do not have a 118th Congress right now we are a nation without a congress at this moment okay because these 17 people now are demanding McCarthy to expose his Rhino status and give them control of the the Committees that matter to them so folks that's all a sideshow this is not the meeting you need to focus on what you need to focus on is the

35 meeting that's going to take place with him and those 17 people after vote number three and when vote number four comes back maybe that will have dropped down to 11.

36 when vote number five comes maybe seven maybe six until Maga is in control of this nation and you know what Jim Jordan does not want the speakership but it's okay he's a non-issue he's a face for a movement and that movement has 17 so far that's holding this man to account it's a great day in America don't you worry about anything when it's all see he just loaded Jim Jordan there's your there's your there's your Mega Man right there see Mr Maga that's him he just voted now that's up to 18.

37 see he just voted for Maga these men are demanding McCarthy give control to Maga of this nation and it's about to happen probably a few days but McCarthy's not going to lose this he cannot it's his life dream it is what he fantasizes about it he will not give this up and if that means give those 18 people every committee they want every investigative panel they want whatever they're wanting he's going to concede This Is War This Is War and it was you people that voted for these people that's making sure the swamp answers to us okay all right so I just hope that helps you understand calm down

38 everybody this is the greatest thing that could be happening Donald Trump is controlling all of this you see that man Donald Trump is in control of that man right now do you get this sitting at the other White House is a man named Donald Trump and he is controlling this house every one of these people the Trump stamp has been put on them and he controls the entire government today Jim Jordan will not be speaker unless something drastically were to change McCarthy will be speaker but guess what he'll be speaker with commitments made to these 19 people that's going to make sure that Donald

39 Trump's policies get passed in the house that's where we're headed I hope you understand now okay so there it is we told you McCarthy would-be speaker we told you that he would speak speaker but he would be spoken for and that's exactly exactly what has happened we also told you several months ago that Donald Trump would be nominated as Speaker of the House and that happened as well it's been a Monumental week okay why don't everybody everybody warm your vocal cords up ready come on let's do it all as one happy family one course all over America let's just do it right you already know three

40 two one I told you oh I told you so there you go you deserve that all right great week in America but how do we trust a rhino Professor Toto because of Donald Trump Donald Trump now owns Kevin McCarthy if you'll listen to Kevin McCarthy yesterday who is he giving all credit to Donald Trump before McCarthy was half and half with Trump 50 50.

41 now he's got to be 100.

42 let me explain why whenever these 15 votes was happening after each vote they would come together and there was more negotiations now if you look at your screen I want to show you what they were negotiating on and why you can trust Kevin McCarthy this is the committee on the rules of the House of Representatives for the Republican Party now this is the adopting of the rules for the 118th Congress now if you'll click right here there is the text of these rules every single one of them I have them all right here you can go read them in this document that that will be voted on on that document

43 the rules that will govern the house these are official once they are voted on by the house

these are the rules that this Congress for the next two years must abide by everyone including the Speaker of the House well 15 votes ago these rules didn't look anything like they look today thanks to Maga because those rules have changed so drastically as I read the document it's going to blow your mind how that Kevin McCarthy has been neutered he has been eviscerated he is in fact a eunuch of the Republic for lack of a better word he has literally lost all of his gravitas his control and I fix and

44 explain why because in the document that I just showed you as you read them you are going to specifically come to subsection Q what you're going to find in there for a hundred years before that hundred years there was a rule in the house that that they basically reignited and that is the motion to vacate the motion to vacate now basically what that means is that the house can get rid before they can get rid of their speaker it's called a motion to vacate but before the rules were changed by Maga it took a majority of the party to call for the speaker to vacate a majority so it would take about

45 a hundred and what uh 110 house members to call for a motion to vacate basically giving the speaker full control to do whatever he wants to do to ignore his promises to to run things the way he wants to run them but in subsection Q of this document thanks to Matt Gates it now requires one house Member One what uno dos tres or no one one one one one one one one that's all to call for a motion to vacate now what happens at that point these 20 people that are Maga Warriors have already made it clear that if one calls for a vacate they will all lock hands again and then McCarthy can never get the 218

46 that he needs and what happens to McCarthy he's out he's out we may still get Donald Trump as Speaker of the House before it's over with this is called a privileged motion it supersedes all other business in other words I don't care if they're negotiating on the budget if somebody calls for a motion to vacate it supersedes anything that they're doing if it's invoked if McCarthy somebody says well how can we trust him that he's going to keep his word you can't trust him but you can why because Trump is telling Gates what to negotiate for remember art of the deal right come on folks art of the

47 deal hey once you get what you want vote present never vote for them why do you think they voted present they didn't vote for McCarthy they voted present because if they vote present then the threshold is lowered for how many votes McCarthy needs he no longer would need 218 votes because the threshold has been lowered that is what they did now if McCarthy does anything outside of his promises to do they will not retain him as speaker and what we saw last week will happen all over again all over again so for those of you that's worried that McCarthy is a rhino you're exactly right he is indeed

48 a rhino but he has nowhere to go but on his knees before Donald Trump Congress cannot move without these rules being approved first you elect a speaker then you swear in the members and then you do what you adopt a rules package which is the package I just showed you that's the first thing that has to do with this rules package the 20 members of Maga have achieved a historic accountability oversight and check on the leadership of the speaker's power ladies and gentlemen our Mega Warriors has changed the House of Representatives they have brought change they have made America great again by

49 taking their power away from the speaker and giving it back to the people I consider this a total win total win across the board from Matt Gates Lauren bobert and America and all of Maga put together we want a great Victory you should be very thankful you don't have to fear McCarthy he's a poodle on a noodle okay is a eunuch for this woman called America he cannot hurt America because he's not in control now he's the speaker as long as he's the speaker his authority is respected but the moment he breaks a promise he's got to go through it all over again so that's why I told you in the

50 beginning of the class tonight he can't be trusted but yet he can thanks to Donald John Trump and the Maga Warriors now I want to address this question of why you know people so confused why Donald Trump was supporting McCarthy ladies and gentlemen you have got to get in a 2024 election mindset okay now a year ago when I was telling everybody 2024 other podcasters and others were were mocking us saying don't he be talking about 2024 it's now or never I told you from the beginning the lion roar in 24 he will Roar in 24.

51 okay now Donald Trump's got to win that election ladies and gentlemen at all costs the battle plan has been drawn he must win the Republican primary then he must win the general when he wins and he comes into office and if he was against Kevin McCarthy who is the Speaker of the House that none of Donald Trump's agenda would go anywhere what if he would have done like you wanted him to do now come on let's just talk tonight what if Trump would have done what you wanted and supported Jim Jordan whom we all love are supported whoever and turned against Kevin McCarthy see Donald Trump knows how

52 the numbers work McCarthy has the numbers but Trump had the better numbers 20 right so he kept those 20 in his right pocket and supports McCarthy publicly right what is that called politics 101 it's called brilliancy because now Kevin's not his enemy now Kevin's his lap dog meow meow so he got him right where he wanted him and then he publicly supports Kevin and he's publicly telling all of the holdouts to come on and vote for Kevin right yet he's on the phone with them I wonder what those calls were why even talk you said for him to come over I'll tell you why yes I want you to go over but

53 not until he gives in to the last last thing I want Marjorie on this committee I want you on this committee and then I want you to be able to call to call him out on one vote ladies and gentlemen Donald John Trump is the legitimate president of the United States of America he Congress he currently governs through the Congress and will continue to do so always understand that God is in control God has raised up an imperfect man to do a job and to be a deliverer for America in this hour amen so I hope you now know why you can trust McCarthy even though you can't Lydia God bless you that is the
