Product: A book on how to become confident

Target market: introverts and people who struggle with social anxiety and lack of confidence

Angle: how does extroverts actually become extroverted

SL 1: single step you must take to become confident

SL 2: Take your confidence to the next level

SL 3: If you are an introvert then try this

Hey <name>

Prabu here

Have you ever felt like everyone is looking at you in public, And then you look at the ground and don't raise your head more than a limit?

I can help you out on your journey to become a confident Chad.

Listen, We introverts are struggling with our everyday life even while going to buy something from a grocery store

One truth is a even large % of richest people like Elon Musk, Jeff Bezos, Bill Gates are introverts

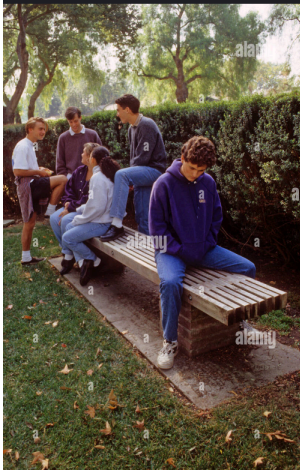

But they are confident.

An introvert can never be an extrovert but you can surely level up your confidence and walk around in public without fearing anyone.

Imagine being the most ignored person in your list.
We introverts have a chain but some of us will break it

How ?

My friend i am naturally an extreme introvert but i am confident and I can speak to people while raising my chin up

I have conditions where I am just ignored but when I have to speak I will....

<Name> i can help you out, i can give you what helped me to overcome the shyness and lack of confidence

The book of neuro Cybernetics by Maxwell Nowel, Now this might not sound like a big thing but it is a big thing

After reading from the book and started applying the lessons into my real life it became impossible for me to fail in social situations

Every introverted celebrities or rich businessman or whatever, they all have this book in their house

Until now it was only available to them but now you can also get it online
