- **Temple of Droga 2.0**
- **Veksar** (Undead zone)

### What's New?

- Five Wayfarer's Camps that lead to a specific group dungeon or raid.
- Raid and group adventure NPCs in camps can start group adventures and raids.
- Magus that can port to other LDoN camps, Nedaria (Gates of Discord), or Guild Lobby (Dragons of Norrath).
- To use the Magus teleportation system, you must get your **Adventurer's Stone**
- The adventure stone grows in stats the more LDoN dungeons you complete. It maxes at **366 total wins**, around 68-78 wins per camp.
- Merchants in LDoN camps sell LDoN group loot, spells, and augmentations in exchange for **Adventure Points**.
- You can **sell** augments and items back to the **Adventure Merchant for a 70% refund**.
- Many LDoN tradeable loots sell for a lot of tribute, so save them for tribute in Gates of Discord.

# Notable Augments

- Note that once you "unlock" adventure merchant store items by attaining the amount of AP to buy it, you no longer need AP from that theme and you can use adventure points earned in any LDoN adventure.
- For example, you cannot buy an augment from **South Ro** with points earned elsewhere unless you have first reached that many points in **South Ro** to "unlock" the store items.
- Almost all augments have a **group version** and **raid version**.
  - Typically **Type 8 = Raid (from Time and onwards)** & **Type 4 and 7 = Group/pre-Time**.
