CHARACTER INFO:

Growing up as an in-demand actor for several TV Shows, Luna quickly saw herself as above her peers with the way her financial status continually grew between her and her peers. Her dating life was purely high achievers or heirs who liked to spoil her, making her one of one hell of a high maintenance. She then made a crossover from acting to the wrestling world, believing herself to be the best of the best of the best of the best. The main character, the star and the rest of the roster were tertiary characters who she wouldn't miss if they were replaced (outside of her family members of course).
