Although there were still some good reviews, there were also many poor reviews, stating that the writers of the website weren't writing essays in native English and there were cases where the work obviously hadn't been proofread.

Papers Uniqueness

Writemyessayonline.com Review **Writemyessayonline.com Review** It was so bad, we don't believe any of these things. The writer was definitely not a native, couldn't have had a PhD from an American university with those poor English skills, and wasn't at all competent to write our paper.

Writemyessayonline.com Review Writemyessayonline.com Review The system for getting your money back is quite complicated and involves the amount of progress the writer has made when you cancel the order - it is entirely possible to pay for an essay you don't like and have to

pay for it regardless.

Writemyessayonline.com Review Writemyessayonline.com Review I can't say whether it is a good writing service or not, I mean, looking at the papers. Because at first when I talked with a very rude representative of the support service I decided that this company isn't a good! But now I see that their writers are quite good.
