Academy of Psychological Clinical Science Clearinghouse

The Academy Of Psychological Clinical Science (APCS)
Trainee Clearinghouse

The goal of this clearinghouse is to compile existing resources for Clinical Psychology graduate students. Throughout graduate school, trainees are tasked with developing skills as teachers, researchers, clinicians, and professionals. We encounter challenges in all of these different domains, and it is sometimes hard to know where to look for advice.

If you have created or know of other helpful resources that you would like to see added to this page, please email the APCS Student Rep at academy.student.rep@gmail.com.

This document was last revised in July 2022.

SEE TABLE OF CONTENTS TO THE LEFT.

Professional Development

Graduate School Survival Tips/Resources:

- APA's Resources for Students: Includes links to APA grants and scholarships database, division membership for students, job search tips, and more.
  - [Resources for Students](#)
- APA's Succeeding in Grad School resources: Includes links to resources about dissertation writing, funding, diversity, self-care, and more.
  - [Graduate and postgraduate education](#)
- The Graduate Student Survival Guide: A list of concise tips that include getting the most out of relationship with advisor, what to look for in committee members, making progress on research, picking research topics.
  - [The Graduate Student Survival Guide – Grad Resources](#)
- 6 Tips for Psychology Graduate Students: An essay with helpful tips to keep in mind.
  - [6 Tips for Psychology Graduate Students](#)
- Tips for Writing your Dissertation or Research: Includes links to search for grants and awards, guides to publishing your dissertation, managing writing ("Help! My dissertation has taken over my life), and publishing research in general.
  - [Graduate and postgraduate education](#)
- Making writing a priority: An essay by a graduate student with his advice for establishing writing goals and effective habits.
  - [Making writing a priority](#)
- A book some people have found helpful: The Compleat Academic
  - [The Compleat Academic: A Career Guide 2nd Revised ed. Edition](#)
- Tips and Resources for First-Year Graduate Students in Clinical Psychology
  - [Division 12/Society for Clinical Psychology Resources](#)
- Three Boundaries Every Graduate Student Should Keep
  - [Grad Resources](#)
- Promoting Graduate Student Mental Health During COVID-19: An article on the acceptability, feasibility, and perceived utility of an online single-session intervention
  - [Wasil et al. (2021)](#)
- CUDCP COVID-19 Pandemic Resources: A link to resources for navigating the difficulties associated with the COVID-19 pandemic
  - [COVID-19 Pandemic Resources](#)
- Beyond Burnout: Survival Strategies for 2022: An article by InsideHigherEd.com on how to survive graduate school amidst the ongoing pandemic
  - [Beyond Burnout](#)
- Yes, You Can Overcome Grad School Burnout - Here's How: A blog post on Time2Track.com detailing tips for overcoming burnout in grad school

- Consort statement for reporting randomized controlled trials:
  - [CONSORT Statement](#)
- NIH workbook for grant writing
  - [Grant Writers' Seminars and Workshops | National Institutes of Health](#)
- Improving Readability and reducing redundancy in scientific writing- tips
  - [Avoiding Redundancy and Improving Readability in Research Writing - Enago Academy](#)
  - [Style Tips – Principles of Scientific Communication](#)

Communicating Scientific Findings to General Audiences:

- AAAS (the American Association for the Advancement of Science) provides a **Communication Toolkit** on how to communicate with the public, rather than with scientific colleagues.
  - [AAAS Communication Toolkit](#)
  - Click through the components of the toolkit on the right of the webpage: communication fundamentals, communicating science online, working with journalists, engaging policymakers, in-person engagement, using multimedia & visuals, and mini workshops
- APA Presidential Address (Nadine Kaslow) on translating psychological science to the public:
  - [(PDF) Translating Psychological Science to the Public](#)
- SImple formula for an elevator speech from University of Nebraska Lincoln:
  - [Your Elevator Speech | Graduate Connections](#)
- Seven minute read on writing for a non-academic audience, per the APA:
  - [How to write for a non-academic audience](#)

Publication:

- Guide to the publication process
  - APA provides a guide to the publication process for new authors:

- - - APA Guide to Preparing Manuscripts for Journal Publication
    - An overview of the journal submission process:
        - - From Review to Publication
- APA highlights graduate students' recommendations on how to navigate conversations about **authorship credit and authorship order**:
    - This post is more condensed:
        - - Determining and negotiating authorship
    - This document goes into more detail, and also includes links to other helpful resources on the last page:
        - - A Graduate Student's Guide to Determining Authorship Credit and Authorship Order
- A tool for finding journals that may be a good fit for your work:
    - Journal / Author Name Estimator
- Advice on how to review a paper for a journal:
    - A how-to for peer review
    - A graduate students' guide to involvement in the peer review process
    - How to Write an Anonymous Peer Review
    - Peer-Review Techniques for Novices | Science | AAAS

Open Science Practices:

- The Open Science Framework allows you to preregister your study, upload scripts and data, and other important aspects of making your study more open and reproducible:
    - OSF
- A blog response to five common questions about open science:
    - Research transparency: 5 questions about open science answered
- A guide to open science for psychologists from Stanford:
    - A guide to open science for psychologists
    - Sections include: pre-registration, code sharing, data sharing, reproducible data analysis, reproducible manuscripts, joining the culture of open science, basic skills for reproducible research, and examples
- The Center for Open Science hosts a blog about the current state of open science, as well as changes in the services they provide:
    - Our Blog

Clinical Work

Advice for Each Stage of Clinical Training:
