We prioritize building strong connections and meaningful relationships with our team members, partners and the broader RWB community. Community and connections are prerequisite for lasting change. <https://100percentdemocracy.org/> 100% Democracy is a new initiative dedicated to the proposition that a representative democracy is only truly representative when everyone participates. Our goal is to reimagine voting as both a fundamental right and a civic responsibility, with every eligible citizen required to participate in this most fundamental act of self-governance. *EFC alum, Miles Rapoport is a co-founder and executive director.*

<https://votefwd.org/> Vote Forward envisions a country where every American receives the support they need to participate in democracy—and where every volunteer can take proven actions to strengthen it. Every cycle, Vote Forward rigorously measures the effectiveness of our voter turnout and civic engagement programs. In continued pursuit of innovation and commitment to transparency, we share our learnings with our volunteers and supporters, peer organizations, and the public.

<https://naacp.org/> This organization doesn't have a specific voting mission listed but there are a lot of voting resources here with an emphasis on protecting Black voters, including "mobilizing in your community" and their Legal Defense Fund.

<https://allianceforyouthaction.org/> At the Alliance, we are building lasting youth organizing infrastructure and progressive political power through three interconnected roles: capacity building, ecosystem leader, funding intermediary. One of their initiatives is civic engagement programs.

<https://22ci.org/> 22CI's mission is to build and strengthen a civil resistance movement capable of stopping authoritarian consolidation while sustaining the long-term work of democratic renewal and reconstruction. We do this by fueling strategic action with clear analysis, developing the next generation of organizers and cultural workers, and catalyzing the coordination infrastructure needed to turn a pro-democracy majority into a movement.

<https://protectdemocracy.org/> Under the U.S. tax code, Protect Democracy is a nonpartisan group. That means we do not work to advance the success or failure of any political party or partisan candidate for office based on their party.

But that legal standard does not adequately describe our values and strategy, nor does it explain what is happening to our system of government.

Democracy in the United States, and around the world, is under threat from a resurgent political creed — authoritarianism — that is disconnected from any healthy political divide, whether conservative vs. progressive, left vs. right, or Democrat vs. Republican.

<https://www.flipthevote.org/> Flip the Vote makes it easy for people to take meaningful action to BLOCK authoritarianism, BUILD democracy, and WIN elections. We provide strategic investment recommendations grounded in careful research about where donations can have the greatest impact. We help people host fun and informative house parties to activate their friends and family around these recommendations.

<https://indivisible.org/>

Indivisible is a nationwide movement of everyday people organizing on the ground in all 50 states to stop the rise of authoritarianism in the United States and to build a real democracy that works for all of us.
