

# Volunteering success story sharing - template

This following is an example of a good success story and provides tips on the information you should encourage your employees to provide.

---

## **Community Garden Bristol nature clean-up**

*[Charity/good cause name & one line description of the activity]*

*[High quality image of the activity, for example the team volunteering or before/after photos]*

12 members from our Accounting department embarked on an 8 hour volunteering event hosted by CGBristol to participate in a community garden clean-up.

*[Who attended & from which department, length of the activity, charity supported and what the task was]*

The area had unfortunately become a fly-tipping spot in recent years and the charity that maintains the garden struggles to keep up with clean-up efforts due to time constraints.

*[Information about why the activity was needed]*

We were tasked with picking up and bagging all the rubbish and fly tipping, weeding, raking and giving the garden a general tidy up.

*[What the team did / delivered during the activity]*

The results were incredible with over 40kg of rubbish being collected from the garden and recycled correctly at the local centre to ensure the help we provided was clean & green.

*[The outcomes of the activity]*

Now the community garden is ready for replanting and can be enjoyed by the local people and wildlife.

*[The positive impact to the community]*

The charity staff were ever so thankful and left our team some lovely feedback;

---

### **Community Garden Bristol**

*"We've struggled recently to keep the garden in a good state and so we cannot thank Acme Company Co's staff enough for saving us so many hours of cleaning up. The area hasn't looked this tidy in years!"*

*[Name, title, Charity name]*

*[A quote from the charity/good cause]*
