

0:00 THEME OF SLAYER; KOREAN

0:36 welcome to the castle super theme song cast~! Did you know the opening theme is slayers theme from the korean version of guilty gear? Pat likes the original ost.

- 2:12 the identity of modern GGs ost. Wooli wanting a modern take on the korean ost.

- - 5:51 what is a dip switch?

- - 7:16 modern day modernization compared to arcade thievery. And arcade fliers for people buying cabinets.

- - 9:52 pat misses going to a good arcade and the death of arcades. Woolie going to the arcade with all the best players in canada.

- - 11:19 A new 'arcade' opened. Its just ticket bullshit

- - 12:32 the new scam: the arcade 1UP arcade. Just add a coin slot!

- - - 16:02 high chance of electrocution with arcade cabinets.

- - - 16:58 pat would prefer CRT for an actual arcade cabinet

- - 17:49 even arcades in japan are struggling, pat!

- - - 19:41 a covid related story: pat went to the dentist for a cleaning and hearing about people coming in without taking precautions.

- - - 22:33 dont wanna see them strapping on boots to pull out teeth. Also dentists can tell if you recently did a blowjob. And chlamydia in your eyes.

- - - 27:40 dentists having video games in their office. And professions where those a part of it can tell "oh you had a good time, huh?"

- - - - 29:35 your grocer is 100% judging you. They WILL talk shit.

- - - - 31:39 when viagra was discovered and not released yet. "Is viagra released yet?" and using viagra to get terrorism informants.

WEEK OF THE BEAST LORDS

PAT

34:30 pat on god of war ragnarok: it's too long. And betray your nation for a fat nut.

- 36:03 "we wanted to make a trilogy but made 2 games instead." and bang for your buck. On the game dragging along in cases. Also some minor gameplay spoilers and not wanting to have cutscenes.

- 41:28 "the wall climb was only 10 minutes though." and a lot of walk and talk.

- 44:02 each section is good, the game is good, but there's bits that were obviously put in so that there's gameplay.

- 45:43 pat going full completionist on this. Pat just feels already done with it.

- 48:30 pat getting very tired of the backseating. And 'you're on fire!'

- 49:55 playing for 7 and a half hours and not feeling he made progress. And where to stop when you are doing a lets play.

57:18 mabinogi. Still being sponsored to stream it. Do you want to buy something that is too much for the gold on your person? Go to the bank and get a check.

1:00:00 tactics ogre reborn. Really wants voice acting for when they do FF tactics. Also the rewind feature is useful. And on significant changes: exp share with an exp cap. Its great.

- 1:05:03 tactics advance and the judge system, feast or famine.

- - 1:08:36 the plot of advanced. ITS NOT REAL, STOP HAVING FUN.

- - 1:11:44 the world of advanced world is real to some degree. Also vagrant story also takes place in the same world

1:12:57 warhammer 40K dark tide. Playing with adeptus ridiculous. Asking if the final boss could be 1 space marine.

- 1:15:20 pat played ogryn. The difference between it and vermintide. On using the suppression mechanic.

- 1:18:35 the ratio of guns to melee weapons feels around 50/50. Fully in its own grimdark setting

- 1:20:07 the game is held together with tape and string. There's a lot of stuff missing like playing it solo or crossplay. Also it runs bad and crashes a lot.

- - 1:22:37 all his bodies were playing deep rock galactic. Deep rock galactic battle pass items now rolled into the loot table if you missed it on the guarantee

- 1:24:43 with warhammer, theres always another game out there that's probably better than it at what it's doing but it doesnt have warhammer in it.

1:27:34 pat wants to play the new pokemon. And the greatest thing woolie has ever seen was the dick.

- 1:28:42 larry.

- 1:29:32 the rap gym and you can blj in the game. And the feedback pat's been getting on the game is that it's super broken but super fun. On some glitches like the two controller thing.

- 1:32:45 might jump in on pokemon after god of war.

1:33:26 catching up on X-files. The music being incredible. RE1 is ripping off the x-files soundtrack.

- 1:35:37 a lot of cool stuff is made by japanese who like american media. And we dont feel japanese cringe.

1:37:00 go check out pat over at patstaresat! Pat is now demanding cringe to react to. Also check out peachsaliva since she'll probably be playing callisto protocol.

1:53:28 woolie played sonic frontiers. Also hedgehog dung paste. Frontiers is pretty good. The first island is the experience.

- 2:26:42 the skill screen, requirement for moves. And

- 2:28:31 the areas where you can just play the kaiju battle

2:33:45 sin is out in strive. How they changed him up from xrd. The original nagoryuki. Giving him pre-canned follow ups on a dark souls stamina meter. And on analogies.

- 2:38:26 changing a tire is like fighting games. The Shadow labrys and bayo comparison.

- - 2:40:34 isnt it weird how much bayo 3 is like dmcV?
