

21 Stories

Follow the requirements listed on your canvas page when writing the story you choose.

****You may write the story in any way you see fit, as long as the requirements are within the context of the story.**

****You may write about what happened before or after the events of the story you choose began.**

You may insert new characters if needed.

Note: You may recognize some of the clips used. If so, you may write your story in line with the actual story based on the movie itself or change it as you see fit. In essence, you do not have to follow the actual story you selected; write it as you imagine it.

Make sure to mention the story you selected (i.e., 1, 2, 3, 4,...) and give it a title.
