

Dear Grandma Alice,

How have you been lately? I'm currently working on a project for one of my classes in school and I need to ask you some questions. What were your Mother and Fathers names? And do you have any fun memories of them or any pictures? My next question is do you know the names of Your Grandmother and Grandfather? What were they like and did they live somewhere else before California? You see I'm asking these questions because i am doing a family tree project and I want to know more about where our family started and what were they like. Can't wait to hear back! Hope you have a great day!

Love,

Sam
