What is *democracy*? Survey activity

Your first assignment related to democracy will be a survey among the people you have around you, at school and outside school.

Your task is to ask and record the answer to the question: 'What *is democracy*?'

Later on in the project, you will share your findings with your Erasmus+ project peers abroad.

You will ask the following people:

1. One social science teacher within the IB
2. One social science teacher at school
3. One other teacher, teaching any subject
4. A peer in another class than yours
5. An adult at home (outside school)

Keep a written record of the answers you receive.
