WHO WE ARE

A Cancer Registrar is...

At the core of the nation's anti-cancer efforts, cancer registrars are data collection and management experts with the training, specialized skills, and an eye for detail to provide the high quality data required in all avenues of cancer statistics and research.

Cancer registrars work closely with physicians, health care administrators and planners, and researchers, to serve as a valuable resource for cancer information with the ultimate goal of preventing and controlling cancer. The primary responsibility of the cancer registrar is to ensure that timely, accurate, and complete data is incorporated and maintained on all types of cancer diagnosed and/or treated within the United States. They also monitor quality of care and clinical practice guidelines, assess patterns of care, and monitor adverse outcomes including mortality and co-morbidity.

Continuing education and training is critical to keeping Registrars abreast of new developments in the field of oncology and cancer registry data management, continuously enhancing the registrar's knowledge and skills.

The Florida Cancer Registrars Association (FCRA) is...

A non-profit professional organization that has been representing Florida Cancer Registrars for over 30 years. FCRA is dedicated to "Fighting Cancer with Reliable and Accurate Information" and is

known as a standard setter with the development of educational workshops, annual continuing education conferences and other educational materials

The FCRA Educational Foundation is . .

A vehicle to build much needed funding to support education of Cancer Registrars to ensure that the quality of the cancer data collection and analysis will continuously improve through the education in Cancer Registry Management and its evolving practice.

The FCRA Educational Foundation is. . .

A public charity with the sole purpose of encouraging the advancement of data quality in cancer research through direct support of Cancer Registrar education.

The FCRA Educational Foundation is. . .

An essential partner for the prevention, research and cure of cancer. The Foundation supports its mission by ensuring education, training and resources for Cancer Registry professionals to provide quality data.

The FCRA Educational Foundation is. . .

A non- profit 501(c)(3) organization with the mission of "supporting the advancement of the Cancer Registry profession through education and research."

How You Can Help. . .

Donate Now! This is a unique way to honor special persons and affairs while making a contribution to support the FCRA Educational Foundation.
