
Today as of 6/26/2025, we agree as a team to complete this project on time and follow the guidelines stated. We agree as a team to be consistently communicative through the entire capstone project. We agree as a team to agree to completing their designated areas on both frontend and backend development on time. We agree as a team that if a conflict occurs between decisions, we will resolve via voting. If a tie in voting occurs, then the team leader in that designated design/coding will decide. We will alternate weekly as team leader overall.

Please sign below in agreement:
