Previous Activities

MEC has a wide presence in several IRL and online events. Showcasing the importance of building the future around Web3, the organization remains connected to the community by attending key events and meetups of LATAM Ecosystem.
It's good to mention that MEC created several significant connections with universities and educational institutes in Argentina.

Maria Fiorentini, *part of the organization's core team, actively collaborates at Universidad Austral. She is a student from law school and at the same time works as an Assistant Professor for relevant courses in which she has the opportunity to onboard many students to Crypto and Web3, as well as introduce everyone to MEC so they can get encouraged to learn more and be part of a wonderful community.*
MEC was present in Red EDUCA for the Foro Mundial de Inteligencia Artificial, Universidad Nacional de La Plata, Universidad Católica Argentina, and Centro Universitario de Vicente Lopez, among others.

MEC has already received several invitations from institutions like UADE (Universidad Argentina de la Empresa), once again from Centro Universitario de Vicente López, and for the first time, an invitation from Chile to go to Universidad San Sebastián which represents a huge opportunity to spread the word about what we have been working on.

Here is a recap of our most relevant events so far:

Crecimiento femenino en Web3 - Crecimiento Side-event
Sitio, August 2024
