

Ms. Hulsey - Week 7 - School From Home - 4 - 7 May

Words to live by:

Hey Everyone !

This week, I want you all to leave something in my Scrapbook for this year! It can be: A FAV Pic ; Advice to upcoming seniors ; A FAV quote ; FAV Tik Tok video ; FAV Meme ; Current Pic ; Headlines from the news ; A personal drawing/illustration ; OR ANYTHING that you want to include for My Scrapbook for this year!!!! I will include a message of some kind too !!!
Have fun with this last assignment!!

I've had a great time this year with you all; it certainly did not end the way we thought it would and the way we wanted it to, but I am so privileged and blessed to have crossed paths with you all. I wish you the best in life, love, and happiness!

Ms. Hulsey's Scrapbook (Padlet) -

Perspective

😞 Imagine you were born in 1900. On your 14th birthday, World War I starts, and ends on your 18th birthday. 22 million people perish in that war. Later in the year, a Spanish Flu epidemic hits the planet and runs until your 20th birthday. 50 million people die from it in those two years. Yes, 50 million. On your 29th birthday, the Great Depression begins. Unemployment hits 25%, the World GDP drops 27%. That runs until you are 33. The country nearly collapses along with the world economy. When you turn 39, World War II starts. You aren't even over the hill yet. And don't try to catch your breath. On your 41st birthday, the United States is fully pulled into WWII. Between your 39th and 45th birthday, 75 million people perish in the war. At 50, the Korean War starts. 5 million perish. At 55 the Vietnam War begins and doesn't end for 20 years. 4 million people perish in that conflict. On your 62nd birthday you have the Cuban Missile Crisis, a tipping point in the Cold War. Life on our planet, as we know it, should have ended. Great leaders prevented that from happening. When you turn 75, the Vietnam War finally ends. Think of everyone on the planet born in 1900. How do you survive all of that? When you were a kid in 1985 and didn't think your 85 year old grandparent understood how hard school was. And how mean that kid in your class was. Yet they survived through everything listed above.

*This is a trying time but let's try and keep things in perspective.

"Life is amazing. And then it's awful. And then it's amazing again. And in between the amazing and awful it's ordinary and mundane and routine. Breathe in the amazing, hold on through the awful, and relax and exhale during the ordinary. That's just living heartbreaking, soul-healing, amazing, awful, ordinary life. And it's breathtakingly beautiful." ~ L.R. Knost

remember that the future will come, that it will be different than today, and that with every passing day, we get closer to it. What do you want the future to look like for yourself? For your community? Start now, start figuring out what the other side of this looks like for you, and begin to put the pieces you'll need together, so when the time comes, you can sprint ahead. We can't control the future, or the fact that it will become the past. We can, however, affect who and how we are in that future - microcosms of humanity initiating truths from within, making small and significant changes to the whole." - excerpt from my journal entry written at 18,000 feet in Advanced Base Camp in Nepal.
