

## **Remove Google Profile Picture**

If you want to remove your profile picture from your Google Account:

- To change it so there is no picture, just your initials
- In your chrome browser, click on the smaller picture at the top
- Go to manage your google account, click on that it will open up your google account
- On left click on people and sharing
- Then scroll down to click on choose what others see
- Click on About Me
- Choose Profile picture, click on arrow and click on remove
- This should take away the picture leaving only your initials. This may take some time but it should update and you'll be good to go.
