Preconditions

1. Website <https://qa-autocheck-test.netlify.app/?token=d5fcc3783ba50fcac78b5a5ea8e4d69f6fe51ed8368bc618a58a846ad8b03a63&block=nop678917> must be open.

2. HTML Editor should be filled in with correct data.

Steps

1

Find the "Menu sprawdzania"

"Menu sprawdzania" is located between the code editor window and the results section.

2

Click "Sprawdz"

1 Request is sent to the server to check the code from the editor window.

2. The answer is displayed in the results section. Points that were done correctly are displayed in green.

2. HTML Editor should be filled in.

Steps

1

Find the "Menu sprawdzania"

"Menu sprawdzania" is located between the code editor window and the results section.

2

Press button "Zresetuj"

A selection window appears asking the user to confirm whether they are sure they want to restore code to pre-default state.

3

Press "Tak" button

Window closes and the code in the editor returns to pre-default state.
