

Feedback from previous Course Participants

*This has been my first short course done over the internet that covers a topic I'm interested in. Produces a different mindset and approach when not told to attend something! Many thanks for whetting my appetite.

*I have found it so useful to attend the sessions here at my own pace when I am available. I think this has been one of the best parts!

*I want to thank you all the instructors for spending a lot of time here, commenting on nearly all posts, giving helpful feedback and sharing their valuable information with us. The participants shared tons of experience and it was very fun and informative to read other ideas and methods and also it was like a therapy to see the same kind of obstacles we face every day in the classroom.

*I believe teachers learn best from each other and this has been a wonderful place for that. I have refreshed my ideas and learned a lot of new things. After the course, there is a lot to think about.

*I benefited a lot from the sessions besides I enjoyed joining this group. I liked the variety in the sessions and I appreciate the organization of the sessions. The tasks were all useful and helped me remind and refresh my activity repertoire.

*It is an undeniable fact that I, we, all have benefited from every single session, all of which brought us together to create a network, to share with like-minded intelligentsia, scholars and, simply put, minds.

*I would like to thank you all for organising such a beneficial and valuable course for us. This was an experience I will not forget. This platform bringing fellow language teachers from different backgrounds and institutions has not only reminded us of some key information but also taught us new things and trends that enabled us to gain insight into vocabulary teaching. Moving on, I know I will make sure to use what I have learned and recycled here in my future classes.

*It has been a refreshing course for all the participants I believe. I would like to thank Sabancı School of Languages once again for creating such an online platform through which we had the opportunity to share and develop together.

*Dear all who have taken part in designing and delivering this course, I have found it so useful to attend the sessions here at my own pace when I am available. I think this has been one of the best parts! Thank you for all the valuable information!

* It was a pleasure to read each and every precious comment here in addition to all the theoretical information from the literature. Thank you, especially the ones who came up with the idea of bringing us together!

* I have to admit that I wasn't very eager to start this online course. I thought we wouldn't have practical information and it would be repetitive. However I feel very happy to be a part of this team. It was very professional and all the information we have acquired so far was very practical. I have learnt many new terms and I've had a chance to expand on my teaching. Learning is endless. I really wish there would be another one in summer time or may there will be a new one for the upcoming semester. The content was very rich and the process was smooth. I'd like to thank all the instructors for their great effort and support.

* I would like to thank everybody, especially our instructors, for providing us this opportunity to learn and exchange our ideas. I have learnt a lot and this MOOC contributed a lot to my teaching experience. I hope to do other courses with the same team.

*Dear all who have taken part in designing and delivering this course,

I have found it so useful to attend the sessions here at my own pace when I am available. I think this has been one of the best parts! Thank you for all the valuable information.

*With this post, I would like to show you my gratitude for enabling us to come together on such a platform and provoking fruitful ideas with the discussion topics and the topics that have been introduced to us. It must have been a much demanding task to create such a session, especially the worksheet in which we were invited to share our feelings about certain task types. It was a very great one that will serve as a useful resource for me in my future endeavors. Thank you very much for your efforts, it is much appreciated by me :)

*Firstly I cannot thank you enough for your valuable time, energy and motivation throughout the before-during-after steps of this quality course program and I really appreciate your efforts behind it. As you mentioned, together with a tight schedule and workload I wish I was able to internalise each lesson fully, but at least partially I did my best thanks again for this opportunity.

*Thank you for creating this great journey! It was fun and informative, and we revisited our knowledge and added new information. Thank you to the creators of this wonderful platform!

*This has been my first short course done over the internet that covers a topic I'm interested in. Produces a different mindset and approach when not told to attend something! Many thanks for whetting my appetite, I look forward to more short courses.
