

How to STOP your KIDS from leaving toothpaste everywhere

A must-know for parents

Are you looking for a solution to stop your kids from making the bathroom a toothpaste war zone? Let me show you how you can quickly fix that.

Not too long ago, I was trapped in a never-ending morning battle with my kids. The cause of this daily showdown? The bathroom, of course! You see, my little ones couldn't seem to brush their teeth without transforming our serene bathroom into a toothpaste disaster zone. It was a mess – toothpaste splattered on the walls, the sink, even the mirror!

As a parent, it was driving me up the wall. The frustration was eating away at me, and I was convinced that this was just an unavoidable part of parenting – until fate intervened.

One day, as I was browsing for solutions, I stumbled upon a game-changer, a product that would forever alter our morning routines for the better.

What is this magical product?

"If you have kids that leave toothpaste everywhere, this is a godsend. Yes, some toothpaste will end up in it over time, but now it's not smeared all over my bathroom counter, no open toothpaste tube on the countertop. Now if only they could rinse the sink after spitting, we'd be in great shape."

★★★★★☆☆ **Must have for kids.**

"My kids are always getting toothpaste everywhere too much on the brush, not on the brush, and all over the sink and counter. Then I found this toothpaste dispenser. I decided to give it a try. I had to change something! I love this!! It's not perfect, however, it's a drastic improvement. Mine does get clogged up as shown in some other review photos after a while. I slide the dispenser off the wall, soak it in warm water, and good to go again. I love that I don't have to supervise as much with teeth on those busy school mornings. I absolutely recommend this product!"

“This item was so easy to install and use. I thought it would be more difficult to have in my home but it is absolutely great and easy to use. Now my son wants one in his bathroom as well. I recommend this item!”

Addressing concerns

While this product offers tremendous benefits, it may require occasional cleaning after a month of use. Fortunately, we've made cleaning a breeze – just soak it in warm water for 15 minutes, and it's as good as new
