STUDENT RESEARCH PROPOSAL RUBRICS

NAU-UCRD-F17D

Research Title: _____

Proponent (s): _____

Date of Review: _____

Criteria	4	3	2	1	Remarks
The problem statement follows clearly from the survey of the literature					
The proposed unit of analysis (subjects, participants, couples, situations, texts, <i>etc.</i>) clearly described in terms of the following: a. their number (e.g., sample size) b. their background (e.g., sex ethnicity, etc. in the case of research participants) c. how they are to be obtained recruited					
It is indicated whether the necessary permission for the cooperation of the participants has been obtained or will be obtained					
The treatment (e.g., any intervention) of the units of analysis is described or specified clearly.					
The measuring instruments to be used fit in with the theoretical background and/or literature survey					
The proposed procedure for analyzing the obtained information (e.g., statistical method) specified.					
The proposal presented in terms of all of the headings required by the University Center for Research.
