Joe Biden is a classic parrot. He’s lived longer than anyone believed possible. He gets his words half-right and often doesn’t know what they mean. He’s an old bird. He’s a good bird. Look America! Bidey wants a cracker and he’s gonna take it from woody woodpecker Donald who can’t leave any damn thing alone for half a second. Heh heh heh hah hah! Heh heh heh hah hah! Heh heh heh heh heh. Peckin’ at that damn tree all day. At least parrot Joe will sit still and say some shit. Low bar I know; at least we can all sleep at night.
