In focus

The Secretariat report ([EB139/4](#)) reviews the 2014 establishment of the Global Cooperation on Assistive Technologies access to assistive technologies, reviews some barriers to wider access and lists four strategies which have been adopted by the Global Cooperation on Assistive Technologies:

1. Policy framework
2. Priority assistive products list
3. Technology training package
4. Single-window assistive products service provision

Background

See [EB139/4](#).

PHM Comment

This is a very constructive initiative.
