Wednesday, February 3rd

MST	*Session*	*Location*
7:00 AM - 5:00 PM	**Registration**	
7:00 - 8:15 AM	**Breakfast**	
8:30 - 10:00 AM	**Breakouts**	
10:00 - 10:30 AM	**Morning Break**	
11:00 - 12:00 PM	**General Session & Close**	
12:00 - 1:00 PM	**Lunch**	
1:00 - 3:00 PM	**Quilt Workshop Day 1: “Topics adapted to Quilt-Member-only audience from campus workshop agendas”** Workshop Description:	

	Title: Planning Regional CI Days Engagements: A Tutorial for RENs to Support Smaller and Teaching-Focused Institutions *Bring your insights into campus cyberinfrastructure challenges - and leave with a plan!* In this hands-on workshop exclusively for Quilt members, you'll explore how RENs can help smaller and primarily undergraduate institutions advance their research and teaching goals. Practice asking questions that uncover campus priorities, then explore how to connect campus teams with NSF-funded and community-operated cyberinfrastructure (CI) resources. Working alongside Quilt peers, you'll sketch out a regional CI workshop tailored to the institutions you serve. Set goals for what you want campus teams to take away, decide who to bring into the room, and try sample activities. You'll leave with a plan you can build on, including how to follow up and find out what participants were able to put into practice six months later. Who should attend? REN staff who engage campus partners, lead research IT or CI services, or plan outreach and training. This includes REN directors, research engagement leads, campus liaisons, network engineers, and program managers. This workshop is funded through The Quilt's NSF EAGER grant for the Regional CI Connect Days pilot (NSF Award No. 2512847).	
3:00 - 3:30 PM	**Afternoon Break**	
3:30 - 5:00 PM	**Quilt Workshop Day 1: "Topics adapted to Quilt-Member-only audience from campus workshop agendas" (continued)**	
	Dinner On Own	

Thursday, February 4th
