The “birth-story” of Heaven’s Water:

The retreats truly are the space where most insane magic unfolds... there are patterns, habits, blocks that CANNOT be unraveled through online. They NEED nervous system contact.. they need heart to heart & eye to eye. I have organised my retreats the past 5 years. Nothing can match the magic of the retreat realm. (+They only keep getting more magical).

This is the first time where I will be holding 4 retreats in a row for the SAME group of women. That actually started the whole “Heaven’s Water” idea... I have witnessed miracle after miracle happening in my retreats (women getting their dream jobs, women opening up spiritual gifts, women cutting some insane ancestral burden & magnetising just insane success @ their purpose, women getting their breath & vibrant-self back after a harsh heartbreak or loss etc)... & in the end of each retreat it always felt like “fuck... those women are SO open and SO bonded... NOW we could go REALLY DEEP with them” but then the retreat ends, goodbyes are said & the constellation of that specific group is lost in the wind. So after my last retreat in May.. I had a thought, **“What would happen if the SAME group kept on deepening?” – that thought gave me shivers.**

Every retreat will be unique..

Every retreat will take us a layer DEEPER..

3x a day ceremonies, practices, rituals..

Yet with the SAME group of women – meaning your bonds will grow deeper as well, we will witness each other's sacred unfolding in deepest layers of SAFETY.

An offering where there is no “rush”.

An offering that is not a “quick-pill”.

An offering that will shape your EMBODIMENT layer by layer, rebirth by rebirth.

4 retreats that will...

1. **..rebirth your Feminine Embodiment.** You will move, create, heal, and moan differently after this year. Your inner power will be embodied & anchored. *You will not become anybody else.. you will not become “more” powerful.. you will simply REMEMBER how powerful you ARE (& that *embodied* remembrance will change*

EVERYTHING). Your self-trust will deepen, you stop questioning yourself, you stop doubting, you stop wavering.. you start moving from deeper alignment, from deeper clarity, from trust, from KNOWINGNESS with more ease than ever before. You will not “push” into your Quantum expansion.. you will RELAX into it. We will activate your Womb & divine intellect of feminine Eros like never before. Your gifts will open more as a byproduct of deep inner safety, balance, & remembrance of Who You Are. You will meet harmony & upgrade your inner sacred masculine & feminine energies. They begin cocreating in Union. & That Union will deeply support your Spirit to unleash her divine light, onto this world, even more. You will do “less”, yet create more. Quality over quantity. Non-sense path, that leads to non-sense level of feminine magnetism & miracles. The “push” era is over. You will reclaim your crown AND your softness.

2. **..rebirth your Purpose.** From structures to energetical pieces.. everything will become more aligned with your inner self + success. Your gifts will be seen & deeply valued. Your relationship to money becomes healthy, safe, & clear. You will create offerings that bring such fulfillment to yourself and your clients. Balanced way of giving & receiving (energetically AND financially). Your dharma will step into her expansion era. You will ENJOY marketing, creating, being seen, stepping into your daily sacred workflows. You will end your offerings with tears in your eyes of gratitude. You will feel HELD by your business, by money, by God. AND... you will do it all from a FEMININE blueprint & in harmony with your WOMB. No more unhealthy masculine structures that can create a level of success, yet cages & hurts you as well. The foundation of your expansion will be your Womb, feminine knowing, & pleasure. Which will be supported by your healthy inner masculine & God support.
3. **...rebirth your relationship to God.** Your faith will deepen into spaces you have never known before. You will truly step into the era of “allowing”. ALLOWING lifeforce to flow through you, ALLOWING your intuition to craft the path, ALLOWING the success to naturally unfold, ALLOWING God’s plan for you to take form. The Holy Path. The BIG things you are here to birth.. will be held by something so much bigger than you. & You will feel it. With your CELLS. You will start feeling SAFE in the arms of Unknown. Your capacity to receive & give more will open up. Because your Spirit is open to God. In ways like never before.

Is this you?

- **Your Dharma has found you.** You have found it.. found the thing that Divine has crafted you for. Your Purpose feels like home & you have been on the path of it. Even in the thick Unknown.. you still keep choosing it. Over & over & over again.

It's like a song, that calls you, that never ends. & You are here to expand with it. To let your Dharma expand YOU. To expand you to the woman you were always meant to become.

- **Your Dharma brings awakening & healing to this world.** Your purpose is connected with some type of sacred space-holding, healing work, feminine initiating that supports Souls into remembrance.
- **You have been making beautiful money, you have solid selflove, your reality IS already magic NOW.. yet there is a level of DEPTH you feel life is calling you to.** You are sooo proud of yourself, you are not the woman you were a few years ago. You have been growing expansively. There is truly so much magic around. YET. You have been recognising your Soul's ACTUAL "Bigness" even more lately.. & you here *the whispers of expansion*.. not from a state of "not enough" but from a state of FULLNESS.
- **Lavish lifestyle & location freedom is not the ONLY motivation for your Purpose x Expression growth.** No. This is much deeper for you. Your dharma is a purpose that God has placed on your heart. A calling to serve. A calling to give. A calling that takes you to your tears & knees. A calling that doesn't always make sense to the mind, but always feels right to the Soul. Dharma that has been cooking within your for lifetimeS. A sacred gift... to give forward. (& yes.. you WILL get to receive a lot of abundance for it as well... but that is not the one-&-only vision for your mission xx)
- **You are tapped-in & sensitive af.** You have a strong intuition. You have always been a bit "different". You probably connect to nature more than people (lol). You are sensitive Soul + see through the society patternings & are here to PLAY YOUR OWN GAME.
- **You have been holding yourself back a bit (or.. a lot).** There is this new level of bigness that wishes to birth through you, you can feel it in the intuition of your bones. But it has felt a bit overwhelming. You have been post-poning it. Waiting for the right timing for it. Well my love.. the right timing is here. Now.

Some of the challenges you are facing:

- **Accepting your ACTUAL Bigness** – you have a tendency to still play it a bit too "small". You ARE more in your Bigness than before... your life IS pure magic.. but there is some level of depth (that you probably can't fully put in words) that is still calling your name from the holy waters.
- **Feel a bit alone in your Soul business & not knowing how to let God's support in more.** You are lifting too many heavy weights. There are some layers of mistrust in

Unknown & Divine's way which is exhausting your channel. Babygirl.. you are here to feel on DNA level SO held. This doesn't have to feel heavy. We just got to learn how to let the Divine Masculine in. ESPECIALLY when it comes to our new level of Bigness and dharma.

- **Something doesn't feel "right" in your Womb.** There are aspects in your life that make your pleasure lines feel drier, womb tighter, & heart heavier. You are rubbing against your feminine design but you don't know how to shift it around exactly.
- **You are skilled in MANY ways but some clarity is missing.** Yes.. you *could* help SOO many, in SOOO many different ways. But does it truly LIT *YOU* UP to work with everybody instead of reserving your energy+work to your f-yes clients? At times your own direction gets a bit foggy. Life force is a bit leaking without direction of what/who lights YOUR channel up. Some boundaries are missing. Let's raise standards. You deserve to become direct and crystal clear in your medicine and to work in a way AND with specific Souls who lit you uppp.
- **Some days you still forget what a unique af Soul you are & treat yourself like some other coach does.** The new level of Bigness that wants to come through your channel needs specific nourishment (so you could actually have healthy capacity to hold the Bigness in a relaxed way). Instead of truly tapping into your unique blueprint, you treat yourself like any other human & wonder why some things are not flowing.
- **Finding the sweet-spot between spiritual work & practical moves.**
- **Cultivating SECURE attachment with life, not anxious/avoidant attachment.** That includes also money, unknown, love, opportunity, Divine. You might be intellectually aware of some patterns but you haven't yet deeply unraveled them on the level of BODY / NERVOUSSYSTEM.
- **Losing some of your fem softness IN the path of your big mission** instead allowing the big mission to AMPLIFY the fem softness.
- **Building up the balance of CONSISTENCY & SURRENDER** – You sometimes still lean towards overgiving & do-do-do mode... OR.. to create only once every Blue Moon when you "feel like it" (but it is actually coming from avoidance, not alignment). You need some support on mastering devotional discipline WHILE also honouring the sacred rhythms of your feminine & Soul.
- **There are some deeper spiritual layers of resistance you are struggling to unravel** – some come from past lives, some come from ancestry. Sometimes you meet such fear & resistance in your body to step into your Bigness that it puts you in freeze. There are some layers you can't initiate yourself through alone.
- **Somewhere in your psyche, there is this doubt about the value of your gifts** – you go through cycles of doubting your power, doubting the depth of your giving. You sometimes mistrust your channel. & That makes you play small. That makes you waver. That makes you be uncertain. + Overgive & receive back in an imbalanced way.

How will 365 days in “Heaven’s Water” initiation nourish you?

Will this journey touch your purpose & creation? - yes.

Is the DEEPEST intention on this journey to align you more deeply with Love (& as byproduct all areas of your life will shift..)? - YES.

This is NOT just a journey that blindly, no-matter-what, pushes you towards your goals.
Yet, this is also not an ungrounded journey.

This year, in the core of it, aligns you more deeply with the bigness of your Soul (& that includes also your purpose). To become even MORE of an embodiment of your intuition. To be even MORE in harmony & magnetism of your feminine body.

To, yes, receive the goals.. but naturally.. as BYPRODUCT... because your feminine embodiment will shapeshift.

We will meet initiations.
We will meet challenges.
But not because we are closed & tapped-out from our power.
No.
THESE initiations
& THESE challenges..
are gift from life for you to shine even more.

& We will embrace them.

This journey is clearly not a quick-pill.
It is not la-la land.
But it IS entering the realms of realness AND miracles at once.

When you know, you know.
In the beginning of my journey.. I didn’t know much but I KNEW I got to follow my intuition. To not just “hear” her, but to EMBODY her. Until this day.. this is my biggest goal (& a goal that transcends other goals). A lot has changed around me. My romantic relationships have made 180. My lifestyle, my location freedom, what I do for “work” has changed 180. My inner AND outer world have changed 180.
& In the centre of it all.. were not 5 year plans. Were not hurting my feminine body to push to my next \$

goal. Just 1 goal: to be in alignment with intuition, with Love. & That has taken million different forms. The art of constant listening, aligning, moving. & Then blinking the eyes and witnessing how the world has changes outside naturally drastically.

Just close your eyes & dream with me:

After this 1-year.. you will have Soul-Sisters for a LIFETIME locked in. You are SO much more grounded, clear, @-your-power in your feminine leadership. Your Womb has awakened. She is now part of your creation & business model. You feel rested, aligned & turned ON. You feel a lot of growth.. but also a lot of ease. You have never felt so safe in Unknown before.. the crystal-clear connection you hold with God.. is above any words in any human language. Your gifts & inner wisdom is blooooooming. You have created a realm for yourself where you get to be so rawly human (no need of perfection) AND so fucking deep in the embodiment of your WOMB POWER. Your clients, life, success LOVES both of those sides in you. Success isn't something you are "making happen", but something that NATURALLY takes place as a byproduct of you remembering who the f you are, owning your unique gifts, being seen, nourishing your capacity & goddess-self, devotional discipline EVEN when in the Unknown. You feel HELD: by your biz, by masculine, by money, by God, & your mentor+soul-sisters. You feel alive. You feel deeply supported. Deeply fulfilled.. since you get to be who God made you for xx.

Who are the women in the group?

- These women.. LOVE group containers. They don't want to just learn from me, but also be supported by other tapped-in women on their path who GET IT
- These women are:
 - heart-centered
 - passionate af & here to make miracles happen. they are not here to live an ordinary life. they are out-of-the-box, they are unique, they are brave.
 - girls' girls: here to hold you in tender parts AND celebrate you in your wins
 - good & clear communicators
 - they are deep AND playful af.. here to cry AND here to make the silliest inside jokes happen – DEPTH & PLAY
 - these women don't just blindly push to their goals, but take deep inner care of themselves as they open their channel even more

Culture within the Portal:

- **We don't "perform" or put somebody on a "pedestal".** We are here for vulnerability, honesty, deep respect & healing together.
 - **Honesty:** we are good communicators who can let others know when something is up / we don't let it bottle up
 - **We deeply respect each other's boundaries & never push anyone to a place where she doesn't feel ready to go**
 - **YET** we also encourage clearly our women **out of their comfort zone bubble & are** unafraid to lovingly reflect their blindspots
 - **When 1 of us is winning = all of us are winning** (we celebrate each other)
 - **We take responsibility for our emotions & don't emotionally vomit on each other.** YET we do not hide tender parts & are open to let them be lovingly seen by others
 - **We ask for help if it is needed,** we don't push "Strong Independent Woman" mood on this group
 - **We are deep in trust.** deep in trust of God & the unique way He unfolds our path. We don't hold all the responsibility. We are open-minded to see & understand the sacredness of sacred timing.
 - We make jokes. **We laugh.** We are silly!!! :P
 - **HW is meant for Souls who are here to play LONGTERM game...** who don't want just "fast results" & quick-pills... but actually value feeling balanced x nourished AS they walk their dharmic path, make money & change the world with their gifts. This initiation will NOT solve all your problems & doesn't guarantee immediate results. You have to be in trust of YOUR sacred timing xx
 - **You are in contact with your intuition & your inner boundaries.** When something doesn't resonate with you in the space then you are in contact with yourself & can set your own boundaries & take full responsibility of your inner wellbeing.
 - **You are good at communicating.** When you need extra support – then you can ask for help. If there is something triggering you in the space – then you can honestly communicate that with Mia's assistants or with Mia. (We have no-negative-gossip policy in the space & instead we INVITE all the women to honestly share if something comes up. We really wish from our hearts to make you feel safe & heard & solve any problem together if it arises 💕)

Important to know:

1. With this initiation, we hold a sacred standard of DEVOTION.

When signing up then you are committing yourself to this space for 1 year.

There is a specific cancellation policy in case of health emergency / death of loved one (all written in the contract – if you want the info about it beforehand, then just ask).

But overall we hold a standard that the Souls who enter, enter for the entire 1 year experience.

We hold this standard because this container is crafted for 1 group – group that is going to be closed for other new participants to enter mid-way.

2. There is an application process included. For the protection & alignment of the group – every Soul who wishes to sign up will go through application initiation. Where we receive clarity if this is a f-yes match for ALL sides. It is really important that all Souls who enter would feel also like a f-yes client for Mia + would match the group energetics. That will protect the group field & bring together Souls who are beautifully aligned with each other 😊
