hey i'm seiza, a youtaite, composer, and mixer! i got into this lovely community in december 2016, and since then, i've been having lots of fun releasing covers and learning to mix. i finally feel decent enough at mixing to open some commissions, so here they are! i'll do my best to deliver the best mix possible for anybody who commissions me, so i hope you guys will find them up to scratch~ i've also been a vocaloid/utau user since 2014, so i know my way around a vsqx pretty well. and you can have confidence in the accuracy of my harmony guides, since i have absolute pitch ^^ i look forward to working with you!

note: my alias used to be asami so don't be alarmed when you see some of the samples credited to 'asami'!

***Note: I am not offering commissions for USTs - the UTAU samples are just there to showcase my tuning. Also, don't mind the crappy mixing in most of these covers - they're pretty old.

🎵 IMPORTANT INFO 🎵

The standard timeframe for completing a tuned VSQx is around **3 weeks**.

If you need it **expedited**, I may be able to do that for an additional price.

If, for any reason, I am unable to complete your commission, you will receive a full refund.

I will use Kagamine Len V4x in the making process of the VSQx. If you want the VSQx tailored to a specific voicebank, include that in the order form and I'll see what I can do.

The final product will be uploaded to Box in a folder including:

- ♪ The VSQx
- ♪ A file labelled "vsqx test" with all the parts of the VSQx layered on top of the instrumental

There are specific tuning styles I will not do, such as autotune etc.

I accept payment via PayPal or bank transfer. You must put down a deposit of **half the agreed price** before I start the work.
