

JOB DESCRIPTION

Audio Sourcing of Multiple Locales project

1. About AixBlock

AixBlock is a comprehensive platform for quickly productizing AI models using decentralized computing resources with flexibility and full privacy control.

Our mission is to enable users to bring their AI models to market quickly, with the freedom to customize and maintain full control over their privacy.

Visit our [website](#) for more information.

Our DNA is a globally distributed company that allows you to work fully remotely with flexible working hours, we always work with folks from all walks of life with no borders.

2. Job type

- Part-time and fully remote.
- Flexible working hours: Ensuring recording of full assigned scripts/pair/week.

3. About the project

This is a conversational recording project, and you will talk about 3 topics:

- Healthcare
- Call center
- Meeting

You need to find a partner to record with. However, you can **record online via Zencastr**, and both speakers **don't need to be in the same room** to record. And you also need to have a Laptop/PC to record because Zencastr does not work on mobile phones.

We need high-quality recorded **conversations in different languages and accents, as detailed below.**

Language	Locale	Country
English	en-AU	Australia
English	en-GB	United Kingdom

AixBlock

English	en-IN	India (full)
English	en-IE	Ireland

Chinese (Simplified)	zh-CN	China (Mainland) (full)
Chinese (Traditional)	zh-TW	Taiwan
Chinese (Traditional)	zh-HK	Hong Kong
Cantonese	yue-CN	China (Cantonese)
Cantonese	yue-HK	Hong Kong (Cantonese)
Korean	ko-KR	South Korea
Italian	it-IT	Italy

3.1. General Requirement

- Native of the required language above.
- Non-native recordings will be rejected.

AixBlock is an end-to-end no-code platform to build, deploy and monetize AI models using decentralized computing resources.

AixBlock

- You need to have a Laptop/PC/Phone to record
- You need to find a partner of the opposite gender to record with you. One user can join with 1 pair only. However, if your partner is the same gender, please contact us to help you match with another partner to record.
- A pair will receive scripts from us and can record a maximum of 5-7 hours.

3.2. Rate and payment circle

Rate: Please check the rate [HERE](#).

Payment cycle:

The invoice will be counted **batch by batch** based on the **approved files - FINAL FEEDBACK from the client.**

- The approved files on the drive will be from our internal QA team, and they will be **delivered to the client weekly**. It takes around 5 days to have a final result from the client, counted from the delivery date of each batch.
- AixBlock will send the invoice after we have a **FINAL FEEDBACK from the client**.
- The payment will be processed **within 30 days** after the confirmation date of the issued invoice.
- For example, if you record all the files within one week, the final results will be available just five days later, and payment will be received 30 days after that.

For the unqualified files, you have a chance to rework it, and resubmit them. We will guide you with more details when it comes.

Payment information:

If you have not filled in the application yet, you can fill in your payment details in this [LINK](#). We will process your payment then.

3.3. Registration to join the project

Please fill out the form here: <https://forms.gle/116Na4SkMfrpDpyKA>
