About the project:

This is an unannounced single player RPG game targeting Console and PC release. I cannot disclose further.

We hate GenAI with a burning passion so don't worry about that.

About Me:

Hi there! My name is Cachi Cordova, a game dev from Mexico. Here's my portfolio
<https://cachi01.itch.io/>

I've also worked as a programmer on OMORI!

I am currently working on opening a new small indie studio and we've been hard at work for our debut project. We are currently looking for someone to do voice over for our reveal trailer which will be shown to potential publishers.

This role is just for the game's trailer, but we'll most likely want to keep in touch with you for the final product if you pass audition!

Thank you so much for your time!
